The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery

Editor BRIAN BLADES, *Washington, D. C.*

Associate editors THOMAS H. BURFORD, *St. Louis*
PAUL ADKINS, *Washington, D. C.*

Advisory editorial board WILLIAM E. ADAMS, *Chicago*
RALPH D. ALLEY, *Albany*
EDWARD J. BEATTIE, JR., *New York*
WILFRED G. BIGELOW, *Toronto*
O. THERON CLAGETT, *Rochester, Minn.*
ANTHONY R. CURRERI, *Madison, Wis.*
DONALD B. EFFLER, *Cleveland*
ROBERT E. GROSS, *Boston*
STUART W. HARRINGTON, *Rochester, Minn.*
JOHN C. JONES, *Los Angeles*
JOHN W. KIRKLIN, *Birmingham*
HIRAM T. LANGSTON, *Chicago*
HERBERT C. MAIER, *New York*
JAMES R. MALM, *New York*
DWIGHT C. McGOON, *Rochester, Minn.*
DONALD L. PAULSON, *Dallas*
DAVID C. SABISTON, JR., *Durham, N. C.*
PAUL C. SAMSON, *Oakland*

Advisory editorial board representing the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland LORD RUSSELL C. BROCK, *London, England*
SIR CLEMENT PRICE THOMAS, *Sussex, England*

Editorial consultants EDWARD CHURCHILL, *Boston*
LEO ELOESSER, *San Francisco*

EVARTS A. GRAHAM, *Editor, 1931-1957*
EMILE HOLMAN, *Editor, 1957-1962*

Subject index*

A

Abdominal pain syndrome, postcoarctation, subnormal amylase and gamma globulin levels in (Vyden), 439

Addiction, drug, fungal endocarditis secondary to: recent concepts in diagnosis and therapy (Harris et al.), 980

Advisory Editorial Board, appointments to, 171

Airway obstruction, severe, caused by mediastinal displacement after right pneumonectomy in child: case report (Adams et al.), 534

Allograft(s), cardiac, monkey, effect of heparin and dipyridamole on chronic vascular lesions in (Kahn et al.), 720

rejection, lung, with and without immunosuppression, nature and evolution of (Veith et al.), 509

Alterations, structure, fine, in canine lung transplants (Becker et al.), 81

American Association for Thoracic Surgery: Graham Traveling Fellowship, 848, 986

Program of 1972 Annual Meeting, 339

Board of Thoracic Surgery: Notice of examination, 490, 673, 847, 985

Notice of changes in examination procedures, 490, 673, 847, 985

Amylase and gamma globulin levels, subnormal, in postcoarctation abdominal pain syndrome (Vyden), 439

Anastomosis, aorta–right pulmonary artery, chylous pericardial effusion complicating (Hawker et al.), 491

Anemia, cell, sickle, mitral valve replacement in child with (Craenen et al.), 797

hemolytic, in child in association with congenital mitral valve disease (Moisey et al.), 765

Anesthetic method upon results of bronchial washing cytology, effect of: analysis of 1,886 cases (Clark and Kyriakos), 930

Aneurysm(s), aortic, complete replacement of ascending aorta and aortic valve for treatment of (Singh and Bentall), 218

sinuses of Valsalva due to bacterial endocarditis, with special reference to their operative management (Shumacker), 896

of ascending transverse, and descending thoracic aorta, respiratory insufficiency due to tracheal compression by: successful surgical management in 76-year-old man (Lefrak et al), 956

fusiform, of entire aortic arch: new surgical approach (Robicsek et al.), 756

intrathoracic, of innominate and subclavian arteries (Thomas), 461

mycotic, of main pulmonary artery complicated by fistula between left coronary artery and pulmonary artery, surgical repair of: case report (Davis and Clarke), 380

of right ventricular outflow patches (Rosenthal et al.), 735

subvalvar, nonmycotic, after aortic valve replacement (Pappas et al.), 925

of thoracic aorta due to cystic medial necrosis, operative treatment of (Shumacker), 1

ventricular, posterior, surgical approach for (Bryant et al.), 639

Angiographic diagnosis of coronary artery lacerations (Pepine et al.), 183

Angiotensin and norepinephrine, response of pulmonary vascular segments to (Baum and Kot), 322

Anomalous pulmonary veins, totally, transposed great arteries combined with: report of successful correction (Sapsford et al.), 360

venous drainage, total, in first month of life, correction of (Buckley et al.), 269

mixed-type: report of successful surgical correction and review of literature (Klint et al.), 164

Antifoam, silicone, on pulmonary vasculature, effects of (Gupta et al.), 714

Aorta, ascending, and aortic valve for treatment of aortic aneurysm, complete replacement of (Singh and Bentall), 218

*January, pp. 1-170; February, pp. 171-338; March, pp. 339-508; April, pp. 509-680; May, pp. 681-848; June, pp. 849-1022.

Aorta—Cont'd
coarctation of, aortic valvular and supravalvular stenosis and: multiple left ventricular outflow obstructions (Kerber et al.), 374
during coronary artery bypass, successful surgical management of acute retrograde dissection of (Lefrak and Howell), 149
of puppies, fate of autologous fascia lata in (Dyde and Ashmore), 226
–right pulmonary artery anastomosis, chylous pericardial effusion complicating (Hawker et al.), 491
thoracic, ascending, transverse, and descending, respiratory insufficiency due to tracheal compression by aneurysm of: successful surgical management in 76-year-old man (Lefrak et al.), 956
descending, clinical application of temporary long external bypass method for cross-clamping of (Inoue et al.), 787
due to cystic medial necrosis, operative treatment of aneurysms of (Shumacker), 1
Aortic arch, entire, fusiform aneurysm of: new surgical approach (Robicsek et al.), 756
interruption associated with patent ductus arteriosus, ventricular septal defect, and total anomalous pulmonary venous connection: total correction in 8-day-old infant by means of profound hypothermia and limited cardiopulmonary bypass (Barratt-Boyes et al.), 367
and arterial lesions due to nonspecific aorto-arteritis, surgical considerations of (Inoue et al.), 599
atresia, congenital: report of long survival and some speculations about surgical approaches (Moodie et al.), 726
homograft valve sterilization and preservation, simple method of (Bolooki et al.), 249
intra-, balloon counterpulsation, portable radiolucent stretcher for (Bolooki et al.), 501
sinuses of Valsalva due to bacterial endocarditis, with special reference to their operative management, aneurysms of (Shumacker), 896
sub-, stenosis, discrete: report of 20 cases (Shariatzadeh et al.), 258
valve and ascending aorta for treatment of aortic aneurysm, complete replacement of (Singh and Bentall), 218
replacement, nonmycotic subvalvar aneurysms after (Pappas et al.), 925
Aortic valve—Cont'd
sticking: complication of fabric-covered ball-valve prosthesis (Mullin et al.), 215
valvular homografts, total correction with: syndrome of absent pulmonary valve (Layton et al.), 800
Aorto-arteritis, nonspecific, surgical considerations of aortic and arterial lesions due to (Inoue et al.), 599
–coronary artery vein bypass, coronary artery hemodynamics after: experimental evaluation (Kakos et al.), 849
Approach, surgical, for posterior ventricular aneurysm (Bryant et al.), 639
ventricular, left, for repair of ventricular septal perforation and infarctectomy (Javid et al.), 14
Arch, aortic, entire, fusiform aneurysm of: new surgical approach (Robicsek et al.), 756
interruption, aortic, associated with patent ductus arteriosus, ventricular septal defect, and total anomalous pulmonary venous connection: total correction in 8-day-old infant by means of profound hypothermia and limited cardiopulmonary bypass (Barratt-Boyes et al.), 367
Arrest, cardiac, in pacemaker patient, hyperosmolar syndrome with (Lansky et al.), 794
circulatory, barbiturate-induced, effect of biventricular massage on (Massion et al.), 230
ischemic, induced: clinical experience with cardioplegia in open-heart surgery (Kirsch et al.), 121
Arterial and aortic lesions due to nonspecific aorto-arteritis, surgical considerations of (Inoue et al.), 599
fistulas, coronary, terminating in coronary venous system (Ogden and Stansel), 172
Arteriosus, ductus, patent, ventricular septal defect, and total anomalous pulmonary venous connection, aortic arch interruption associated with: total correction in 8-day-old infant by means of profound hypothermia and limited cardiopulmonary bypass (Barratt-Boyes et al.), 367
during open-heart surgery, closure of: surgical experience with different techniques (Bhati et al.), 820
Artery(ies) banding, pulmonary, adjustable instrument for: description of instrument and technique of application (Nahas et al.), 732

Artery(ies)—Cont'd
bypass, coronary, successful surgical management of acute retrograde dissection of aorta during (Lefrak and Howell), 149
grafts, mammary, internal, myocardial revascularization by: a technique without optical assistance (Loop et al.), 674
great (aorta anterior and to left), pulmonary stenosis, and subaortic ventricular septal defect, successful repair of double-outlet right ventricle with transposition of (Danielson et al.), 741
transposed, combined with totally anomalous pulmonary veins: report of successful correction (Sapsford et al.), 360
hemodynamics, coronary, after aorto–coronary artery vein bypass: experimental evaluation (Kakos et al.), 849
innominate and subclavian, intrathoracic aneurysms of (Thomas), 461
lacerations, coronary, angiographic diagnosis of (Pepine et al.), 183
pressure, coronary, during coronary artery perfusion, monitoring of (Wertheimer and Hughes), 705
pulmonary, –cavo shunt, pulsatile: surgical technique and hemodynamic characteristics (Furuse et al.), 495
main, complicated by fistula between left coronary artery and pulmonary artery, surgical repair of mycotic aneurysm of: case report (Davis and Clarke), 380
primary sarcoma of (Sethi et al.), 587
right, –aorta anastomosis, chylous pericardial effusion complicating (Hawker et al.), 491
and superior vena cava, surgical treatment of obstruction of (Gopalrao et al.), 394
umbilical, and muscle pH monitoring in neonatal cardiopulmonary bypass, use of (Harken and Filler), 973
and valve replacement, pulmonary, in calf. II. Autologous rectus sheath valve (Anagnostopoulos et al.), 665
Atresia, aortic, congenital: report of long survival and some speculations about surgical approaches (Moodie et al.), 726
bronchial, segmental, of left upper lobe with resultant bronchial mucocele (Wilson and Jones), 486
esophageal, chondroepithelial choristoma (tracheobronchial rest) of esophagus associated with: report of unusual case (Goldman and Ban), 318
Atresia, esophageal—Cont'd
tracheoesophageal fistula, and associated anomalies: hyperalimentation as aid in treatment (Holder et al.), 838
Atrium, left, congenital enlargement of (Shaher et al.), 292
right, by means of Foley catheter, control of bleeding from gunshot wound of inferior vena cava at junction with (Arbulu and Thoms), 427
Autologous fascia lata in aorta of puppies, fate of (Dyde and Ashmore), 226
mitral valves, frame-supported, 72, valve failure in: two year follow-up (McEnany et al.), 199
rectus sheath valve. II. Pulmonary valve and artery replacement in calf (Anagnostopoulos et al.), 665
Automatic cardiopulmonary bypass unit for use in infants (Turina et al.), 263
Autotransplantation, lung, bilateral, staged and simultaneous, in dogs, hemodynamic alterations after: follow-up studies (Fujimura et al.), 937
immediate studies (Fujimura et al.), 527
Auxiliary heart transplant, assisted circulation with: experimental study (Barbero Marcial et al.), 696

B

Bacterial endocarditis, with special reference to their operative management, aneurysms of aortic sinuses of Valsalva due to (Shumacker), 896
Balloon counterpulsation, intra-aortic, portable radiolucent stretcher for (Bolooki), 501
pump, ventricular, left, after severe myocardial damage in dogs, sustained circulation by (Donald et al.), 681
Ball-valve prosthesis, fabric-covered, complication of: sticking aortic valve (Mullin et al.), 215
Banding, artery, pulmonary, adjustable instrument for: description of instrument and technique of application (Nahas et al.), 732
Barbiturate-induced circulatory arrest, effect of biventricular massage on (Massion et al.), 230
Bedrest, supine, upon alveolar-arterial oxygen gradients and intrapulmonary shunting in normal man (Trimble et al.), 873
Bilateral lipoid pneumonia, asynchronous, presenting as solitary nodules in lung: case report (Tunell and Blades), 334

Bilateral—Cont'd
lung autotransplantation, staged and simultaneous, in dogs, hemodynamic alterations after: follow-up studies (Fujimura et al.), 937
immediate studies (Fujimura et al.), 527
tension pneumothorax associated with mediastinoscopy (Furgang and Saidman), 329

Biopsy, needle, of lung, dissemination of cancer cells by (Berger et al.), 430

Biventricular massage on barbiturate-induced circulatory arrest, effect of (Massion et al.), 230

Bleeding from gunshot wound of inferior vena cava at its junction with right atrium by means of Foley catheter, control of (Arbulu and Thoms), 427
massive, from esophageal cancer (Ghosh et al.), 977

Blood filtration during cardiopulmonary bypass (Egeblad et al.), 384
flow, coronary, during rejection of orthotopically transplanted canine heart, changes in (Stinson et al.), 854
measurements, electromagnetic, miniaturized occluder for (Swan and Reynolds), 403
probe, extractable, Williams-Barefoot: design, transducer characteristics, and clinical application in cardiac surgery (Williams et al.), 917

Bony thorax at large institution, twenty years' experience with intrinsic tumors of (Teitelbaum), 776

Bradycardia, sinoatrial, permanent cardiac pacing for (Morgan et al.), 453

Bronchial atresia, segmental, of left upper lobe with resultant bronchial mucocele (Wilson and Jones), 486
washing cytology, effect of anesthetic method upon results of: analysis of 1,886 cases (Clark and Kyriakos), 930

Bronchogenic carcinoma, report on four more cases with special reference to: postradiation pericarditis (Lawson et al.), 841

Bronchus(i), seemingly malignant granular cell myoblastoma of (Malette et al.), 99
stem, both, and intrathoracic trachea with molded Silastic prosthesis, replacement of (Neville et al.), 569

Bullae, pulmonary, localized, requiring emergency surgery, massive hemoptysis associated with: case report (Berry and Ochsner), 94

Bullous emphysema, evaluation and surgery of (Wesley et al.), 945

Bypass, artery, coronary, successful surgical management of acute retrograde dissection of aorta during (Lefrak and Howell), 149
cardiopulmonary, blood filtration during (Egeblad et al.), 384
comparison of microparticles produced when two disposable-bag oxygenators and disc oxygenator are used for (Simmons et al.), 613
neonatal, use of umbilical artery and muscle pH monitoring in (Harken and Filler), 973
newly designed venous cannula for (Phillips and Romanowski), 769
outbreak of hemorrhage following: epidemiologic studies (Brooks and Bahnson), 449
heart, left, transarterial, effects of partial and complete unloading of failing left ventricle by (Zwart et al.), 865
by measuring mixed venous oxygen and erythrocyte 2,3-diphosphoglycerate, estimation of hypoxia during (Murphy), 723
method, external, long, temporary, for cross-clamping of descending thoracic aorta, clinical application of (Inoue et al.), 787
unit, cardiopulmonary, automatic, for use in infants (Turina et al.), 263
vein, aorto–coronary artery, coronary artery hemodynamics after: experimental evaluation (Kakos et al.), 849

C

Cancer cells by needle biopsy of lung, dissemination of (Berger et al.), 430
esophageal, massive bleeding from (Ghosh et al.), 977
lung—future projection (Langston), 412

Candida endocarditis, management of (Grehl et al.), 118

Cannula, venous, newly designed, for cardiopulmonary bypass (Phillips and Romanowski), 769

Carcinoma, bronchogenic, report on four more cases with special reference to: postradiation pericarditis (Lawson et al.), 841
of cervical esophagus (Burdette and Jesse), 41
esophageal, chemotherapy as definitive form of therapy in (Nelson), 827

Cardiac allografts, monkey, effect of heparin and dipyridamole on chronic vascular lesions in (Kahn et al.), 720
arrest in pacemaker patient, hyperosmolar syndrome with (Lansky et al.), 794

Cardiac—Cont'd
intra-, operations, open, potassium intake and balance after (Breckenridge et al.), 305
pacing, permanent, for sinoatrial bradycardia (Morgan et al.), 453
rupture, external, postinfarction, successful surgical treatment of (FitzGibbon et al.), 622
sarcoma, primary (Sanoudos and Reed), 482
surgery in patients with chronic renal failure, management of: report of 3 cases (Manhas and Merendino), 235
valves, prosthetic: in vitro study (Duff and Fox), 131
Cardioplegia in open-heart surgery, clinical experience with: induced ischemic arrest (Kirsch et al.), 121
Cardiopulmonary bypass, blood filtration during (Egeblad et al.), 384
comparison of microparticles produced when two disposable-bag oxygenators and disc oxygenator are used for (Simmons et al.), 613
neonatal, use of umbilical artery and muscle pH monitoring in (Harken and Filler), 973
newly designed venous cannula for (Phillips and Romanowski), 769
outbreak of hemorrhage following: epidemiologic studies (Brooks and Bahnson), 449
unit, automatic, for use in infants (Turina et al.), 263
Catheterization, percutaneous, of subclavian vein, practical considerations pertinent to: relationship of left subclavian vein to clavicle (Land), 564
Cavo–pulmonary artery shunt, pulsatile: surgical technique and hemodynamic characteristics (Furuse et al.), 495
Cell(s), cancer, by needle biopsy of lung, dissemination of (Berger et al.), 430
myoblastoma, granular, malignant, seemingly, of bronchus (Malette et al.), 99
normal and malignant, intercellular order in: centrioles (Schafer), 472
Centrioles: intercellular order in normal and malignant cells (Schafer), 472
Cervical esophagus, carcinoma of (Burdette and Jesse), 41
Chemotherapy as definitive form of therapy in esophageal carcinoma, (Nelson), 827
Chest metastases from gestational trophoblastic disease, role of thoracotomy in management of patients with (Shirley et al.), 545
Chest—Cont'd
wall at large institution, twenty years' experience with soft tissue sarcomas of (Teitelbaum), 585
Child in association with congenital mitral valve disease, hemolytic anemia in (Moisey et al.), 765
with sickle cell anemia, mitral valve replacement in (Craenen et al.), 797
Chondroepithelial choristoma (tracheobronchial rest) of esophagus associated with esophageal atresia: report of unusual case (Goldman and Ban), 318
Chordoma presenting as posterior mediastinal mass: choristoma (Clemons et al.), 922
Choristoma, chondroepithelial (tracheobronchial rest), of esophagus associated with esophageal atresia: report of unusual case (Goldman and Ban), 318
chordoma presenting as posterior mediastinal mass (Clemons et al.), 922
Chylous pericardial effusion complicating aorta–right pulmonary artery anastomosis (Hawker et al.), 491
Circulation, assisted, with auxiliary heart transplant: experimental study (Barbero Marcial et al.), 696
extracorporeal, effect of Dacron wool filtration on microembolic phenomenon in (Ashmore et al.), 240
pump, intracorporeal: contribution to development of mechanical heart substitutes (Veilberg), 143
sustained, by left ventricular balloon pump after severe myocardial damage in dogs (Donald et al.), 681
Circulatory arrest, barbiturate-induced, effect of biventricular massage on (Massion et al.), 230
effects of morphine early after open-heart surgery (Morrison et al.), 890
Clamping, cross-, of descending thoracic aorta, clinical application of temporary long external bypass method for (Inoue et al.), 787
Coarctation of aorta, aortic valvular and supravalvular stenosis and: multiple left ventricular outflow obstructions (Kerber et al.), 374
Comminuted fracture of sternum, open reduction and fixation of (Kurzweg et al.), 424
Communicator, pre-xiphoid, of internal mammary veins (Chung), 880
Composite graft, fascia lata, reconstruction of right ventricular outlet with (Ionescu et al.), 60

Compression, tracheal, by aneurysm of ascending, transverse, and descending thoracic aorta, respiratory insufficiency due to: successful surgical management in 76-year-old man (Lefrak et al.), 956

Congenital aortic atresia: report of long survival and some speculations about surgical approaches (Moodie et al.), 726

enlargement of left atrium (Shaher et al.), 292

mitral valve disease, hemolytic anemia in child in association with (Moisey et al.), 765

stenosis, unilateral, of pulmonary veins: very rare cause of pulmonary hypertension (Binet et al.), 397

subaortic stenosis in infancy caused by rhabdomyoma of left ventricle (Shaher et al.), 157

Constrictive pericarditis following uremic effusion (Wolfe et al.), 540

Cor triatriatum and tetralogy of Fallot, coexisting, successful repair of (Danielson and Feldt), 391

Coronary arterial fistulas terminating in coronary venous system (Ogden and Stansel), 172

artery bypass, successful surgical management of acute retrograde dissection of aorta during (Lefrak and Howell), 149

hemodynamics after aorto–coronary artery vein bypass: experimental evaluation (Kakos et al.), 849

lacerations, angiographic diagnosis of (Pepine et al.), 183

left, and pulmonary artery, surgical repair of mycotic aneurysm of main pulmonary artery complicated by fistula between: case report (Davis and Clarke), 380

pressure during coronary artery perfusion, monitoring of (Wertheimer and Hughes), 705

blood flow during rejection of orthotopically transplanted canine heart, changes in (Stinson et al.), 854

perfusion during open-heart surgery, myocardial infarction complicating (Furlong et al.), 185

Correction, surgical, of transposition of great vessels: technical suggestion (Replogle and Lin), 196

of total anomalous pulmonary venous drainage in first month of life (Buckley et al.), 269

Correspondence

Ischemic tolerance of lung (Pecora), 337

Reply to ischemic tolerance of lung (Veith), 337

Counterpulsation, balloon, intra-aortic, portable radiolucent stretcher for (Bolooki), 501

Cross-clamping of descending thoracic aorta, clinical application of temporary long external bypass method for (Inoue et al.), 787

Cyst, hydatid, pleural, primary, pneumothorax following rupture of: case report (Jesiotr and Romanoff), 594

Cystic medial necrosis, operative treatment of aneurysms of thoracic aorta due to (Shumacker), 1

Cytology, washing, bronchial, effect of anesthetic method upon results of: analysis of 1,886 cases (Clark and Kyriakos), 930

D

Dacron prosthesis, repair of left ventricular traumatic defect with (Symbas et al.), 608

wool filtration on microembolic phenomenon in extracorporeal circulation, effect of (Ashmore et al.), 240

Defect, septal, ventricular, subaortic, transposition of great arteries (aorta anterior and to left), and pulmonary stenosis, successful repair of double-outlet right ventricle with (Danielson et al.), 741

traumatic, ventricular, left, with Dacron prosthesis, repair of (Symbas et al.), 608

Diagnosis, bedside, of massive pulmonary embolism, newer approaches in: preliminary report (Calinog et al.), 300

Diaphragmatic hernia, subcostosternal (Thomas), 279

-pericardial rupture, extensive, from blunt trauma: report of case, with review (Coats et al.), 275

Diphosphoglycerate, 2,3-, erythrocyte, and mixed venous oxygen, estimation of hypoxia during bypass by measuring (Murphy), 723

Dipyridamole and heparin on chronic vascular lesions in monkey cardiac allografts, effect of (Kahn et al.), 720

Discrete subaortic stenosis: report of 20 cases (Shariatzadeh et al.), 258

Disease, obstructive, vascular, pulmonary, experimental studies of pathogenesis of (Hawe et al.), 652

trophoblastic, gestational, role of thoracotomy in management of patients with chest metastases from (Shirley et al.), 545

valve, mitral, congenital, hemolytic anemia in child in association with (Moisey et al.), 765

Displacement, mediastinal, after right pneumonectomy in child, severe airway obstruction caused by: case report (Adams et al.), 534
Disruption, pneumatic, traumatic, of esophagus (Buntain and Lynn), 553
Dissection, retrograde, acute, of aorta during coronary artery bypass, successful surgical management of (Lefrak and Howell), 149
Distress syndrome, respiratory, ductus ligation in (Gupta et al.), 642
Diverticula, epiphrenic, of esophagus: certain considerations about its surgical treatment (Garcia et al.), 114
Double-outlet right ventricle with transposition of great arteries (aorta anterior and to left), pulmonary stenosis, and subaortic ventricular septal defect, successful repair of (Danielson et al.), 741
Drainage, venous, pulmonary, anomalous, total, in first month of life, correction of (Buckley et al.), 269
mixed-type: report of successful surgical correction and review of literature (Klint et al.), 164
Drug addiction, fungal endocarditis secondary to: recent concepts in diagnosis and therapy (Harris et al.), 980
Ductus arteriosus, patent, during open-heart surgery, closure of: surgical experience with different techniques (Bhati et al.), 820
ventricular septal defect, and total anomalous pulmonary venous connection, aortic arch interruption associated with: total correction in 8-day-old infant by means of profound hypothermia and limited cardiopulmonary bypass (Barratt-Boyes et al.), 367
Ductus ligation in respiratory distress syndrome (Gupta et al.), 642

E

Effusion, pericardial, chylous, complicating aorta–right pulmonary artery anastomosis (Hawker et al.), 491
uremic, constrictive pericarditis following (Wolfe et al.), 540
Electroencephalographic studies during open-heart surgery (Wright et al.), 631
Electromagnetic blood flow measurements, miniaturized occluder for (Swan and Reynolds), 403
Embolism, fat, role in pathogenesis of: lipid metabolism after trauma (McNamara et al.), 968
Embolism—Cont'd
pulmonary, implications of urokinase study concerning surgical treatment of (Sautter et al.), 54
massive, newer approaches in bedside diagnosis of: preliminary report (Calinog et al.), 300
Emergency surgery, massive hemoptysis associated with localized pulmonary bullae requiring: case report (Berry and Ochsner), 94
Emphysema, bullous, evaluation and surgery of (Wesley et al.), 945
Empyema, postpneumonectomy: neomycin instillation and definitive closure (Stafford and Clagett), 771
Endocarditis, bacterial, with special reference to their operative management, aneurysms of aortic sinuses of Valsalva due to (Shumacker), 896
Candida, management of (Grehl et al.), 118
fungal, secondary to drug addiction: recent concepts in diagnosis and therapy (Harris et al.), 980
Hemophilus aphrophilus, in patient with mitral valve prosthesis: case report and review of literature (Goldsweig et al.), 408
Enlargement, congenital, of left atrium (Shaher et al.), 292
Epiphrenic diverticula of esophagus: certain considerations about its surgical treatment (Garcia et al.), 114
Erythrocyte 2, 3-diphosphoglycerate and mixed venous oxygen, estimation of hypoxia during bypass by measuring (Murphy), 723
Esophageal atresia, tracheoesophageal fistula, and associated anomalies: hyperalimentation as aid in treatment (Holder et al.), 838
cancer, massive bleeding from (Ghosh et al.), 977
carcinoma, chemotherapy as definitive form of therapy in (Nelson), 827
perforation, intramural, spontaneous (Kelley et al.), 504
ring, lower (Schatzki's ring), nature and surgical treatment of (Lam et al.), 34
Esophagopleural fistula: late complication after pneumonectomy (Symes et al.), 783
Esophagus associated with esophageal atresia, chondroepithelial choristoma (tracheobronchial rest) of: report of unusual case (Goldman and Ban), 318
cervical, carcinoma of (Burdette and Jesse), 41

Esophagus—Cont'd
epiphrenic diverticula of: certain considerations about its surgical treatment (Garcia et al.), 114
traumatic pneumatic disruption of (Buntain and Lynn), 553
Experimental studies of pathogenesis of pulmonary vascular obstructive disease (Hawe et al.), 652
Extracorporeal circulation, effect of Dacron wool filtration on microembolic phenomenon in (Ashmore et al.), 240

F

Fabric-covered ball-valve prosthesis, complication of: sticking aortic valve (Mullin et al.), 215
Failing left ventricle by transarterial left heart bypass, effects of partial and complete unloading of (Zwart et al.), 865
Failure, acute, ultrastructural changes in heart during (Ferrier et al.), 882
renal, chronic, management of cardiac surgery in patients with: report of 3 cases (Manhas and Merendino), 235
valve, in 72 frame-supported autologous fascia lata mitral valves: two year follow-up (McEnany et al.), 199
Fallot, tetralogy of, and cor triatriatum, coexisting, successful repair of (Danielson and Feldt), 391
median sternotomy and outflow patch infections in total repair of: report of 3 cases of survival and review of literature (Orringer et al.), 442
Fascia lata, autologous, in aorta of puppies, fate of (Dyde and Ashmore), 226
composite graft, reconstruction of right ventricular outlet with (Ionescu et al.), 60
mitral valves, autologous, frame-supported, 72, valve failure in: two year follow-up (McEnany et al.), 199
Fellowship, Traveling, Graham, 848, 986
Filtration, blood, during cardiopulmonary bypass (Egeblad et al.), 384
Dacron wool, on microembolic phenomenon in extracorporeal circulation, effect of (Ashmore et al.), 240
Fistula(s), arterial, coronary, terminating in coronary venous system (Ogden and Stansel), 172
between left coronary artery and pulmonary artery, surgical repair of mycotic aneurysm of main pulmonary artery complicated by: case report (Davis and Clarke), 380
Fistula(s)—Cont'd
esophagopleural: late complication after pneumonectomy (Symes et al.), 783
tracheoesophageal, esophageal atresia, and associated anomalies: hyperalimentation as aid in treatment (Holder et al.), 838
tracheopleural: complication of cuffed tracheostomy tube (Mulder et al.), 416
Fixation and reduction, open, of comminuted fracture of sternum (Kurzweg et al.), 424
Flow, blood, coronary, during rejection of orthotopically transplanted canine heart, changes in (Stinson et al.), 854
measurements, blood, electromagnetic, miniaturized occluder for (Swan and Reynolds), 403
probe, blood, extractable, Williams-Barefoot: design, transducer characteristics, and clinical application in cardiac surgery (Williams et al.), 917
Foley catheter, control of bleeding from gunshot wound of inferior vena cava at junction with right atrium by means of (Arbulu and Thoms), 427
Fracture, comminuted, of sternum, open reduction and fixation of (Kurzweg et al.), 424
Frame-supported autologous fascia lata mitral valves, 72, valve failure in: two year follow-up (McEnany et al.), 199
Function, valve, mitral, peroperative assessment of (Pagliero and Yates), 458
Fungal endocarditis secondary to drug addiction: recent concepts in diagnosis and therapy (Harris et al.), 980
Fusiform aneurysm of entire aortic arch: new surgical approach (Robicsek et al.), 756

G

Gamma globulin and amylase levels, subnormal, in postcoarctation abdominal pain syndrome (Vyden), 439
Gestational trophoblastic disease, role of thoracotomy in management of patients with chest metastases from (Shirley et al.), 545
Gradients, oxygen, alveolar-arterial, and intrapulmonary shunting in normal man, effect of supine bedrest upon (Trimble et al.), 873
Graft(s), artery, mammary, internal, myocardial revascularization by: a technique without optical assistance (Loop et al.), 674

Graft(s)—Cont'd
composite, fascia lata, reconstruction of right ventricular outlet with (Ionescu et al.), 60
of heterologous pulmonary valve and prosthetic tube for reconstruction of right ventricular outflow tract: clinical application in four patients (Imamura et al.), 747
Graham Traveling Fellowship, 848, 986
Granular cell myoblastoma, malignant, seemingly, of bronchus (Malette et al.), 99
Gravis, myasthenia, surgical management in (Mulder et al.), 105
Gunshot wound of inferior vena cava at its junction with right atrium by means of Foley catheter, control of bleeding from (Arbulu and Thoms), 427

H

Heart bypass, left, transarterial, effects of partial and complete unloading of failing left ventricle by (Zwart et al.), 865
canine, hemodynamic observations after orthotopic transplantation of (Stinson et al.), 344
transplanted, orthotopically, changes in coronary blood flow during rejection of (Stinson et al.), 854
direct revascularization of: early clinical experience with 200 patients (Anderson et al.), 353
dog, supported, isolated, observed over period of 24 hours, ventricular performance in (Gamble et al.), 906
during acute failure, ultrastructural changes in (Ferrier et al.), 882
substitutes, mechanical, contribution to development of: intracorporeal circulation pump (Vielberg), 143
transplant, auxiliary, assisted circulation with: experimental study (Barbero Marcial et al.), 696
valve(s), metal, prosthetic, etiology of thrombus formation on: role of spontaneous in vivo interfacial potentials and their measurements (Lee et al.), 809
prostheses without anticoagulants, implantation of (Stanford et al.), 648
Hemodynamic alterations after staged and simultaneous bilateral lung autotransplantation in dogs: follow-up studies (Fujimura et al.), 937
immediate studies (Fujimura et al.), 527
observations after orthotopic transplantation of canine heart (Stinson et al.), 344
Hemodynamics, artery, coronary, after aorto–coronary artery vein bypass: experimental evaluation (Kakos et al.), 849
Hemolytic anemia in child in association with congenital mitral valve disease (Moisey et al.), 765
Hemophilus aphrophilus endocarditis in patient with mitral valve prosthesis: case report and review of literature (Goldsweig et al.), 408
Hemoptysis, massive, associated with localized pulmonary bullae requiring emergency surgery: case report (Berry and Ochsner), 94
Hemorrhage following cardiopulmonary bypass, outbreak of: epidemiologic studies (Brooks and Bahnson), 449
Hemothorax in idiopathic thrombocytopenic purpura (ITP) (Fromke and Schmidt), 962
Heparin and dipyridamole on chronic vascular lesions in monkey cardiac allografts, effect of (Kahn et al.), 720
Hernia, diaphragmatic, subcostosternal (Thomas), 279
hiatal, and analyses of recurrences and their treatment, long-term results of Mark IV operation for (Orringer et al.), 25
Hiatal hernia and analyses of recurrences and their treatment, long-term results of Mark IV operation for (Orringer et al.), 25
Holt-Oram syndrome: surgical implications (Rainer et al.), 478
Homograft(s) valve, aortic, sterilization and preservation, simple method of (Bolooki et al.), 249
valvular, aortic, total correction with: syndrome of absent pulmonary valve (Layton et al.), 800
Hydatid cyst, pleural, primary, pneumothorax following rupture of: case report (Jesiotr and Romanoff), 594
Hyperalimentation as aid in treatment: esophageal atresia, tracheoesophageal fistula, and associated anomalies (Holder et al.), 838
Hyperosmolar syndrome with cardiac arrest in pacemaker patient (Lansky et al.), 794
Hypertension, pulmonary, very rare cause of: unilateral congenital stenosis of pulmonary veins (Binet et al.), 397
Hypocapnic changes in lung mechanics, ventilation-perfusion inequalities resulting from (Monkcom and Patterson), 577

Hypoxia during bypass by measuring mixed venous oxygen and erythrocyte 2,3-diphosphoglycerate, estimation of (Murphy), 723

I

Idiopathic thrombocytopenic purpura (ITP), hemothorax in (Fromke and Schmidt), 962

Immunosuppression, nature and evolution of lung allograft rejection with and without (Veith et al.), 509

Implantation of heart valve prostheses without anticoagulants (Stanford et al.), 648

Infancy caused by rhabdomyoma of left ventricle, congenital subaortic stenosis in (Shaher et al.), 157

Infants, automatic cardiopulmonary bypass unit for use in (Turina et al.), 263

Infarctectomy, myocardial, and repair of ruptured ventricular septum during acute stage of infarction (Trinkle et al.), 193

and ventricular septal perforation, left ventricular approach for repair of (Javid et al.), 14

Infarction, myocardial, complicating coronary perfusion during open-heart surgery (Furlong et al.), 185

infarctectomy and repair of ruptured ventricular septum during acute stage of (Trinkle et al.), 193

post-, external cardiac rupture, successful surgical treatment of (FitzGibbon et al.), 622

Infections, median sternotomy and outflow patch, in total repair of tetralogy of Fallot: report of 3 cases of survival and review of literature (Orringer et al.), 442

Innominate and subclavian arteries, intrathoracic aneurysms of (Thomas), 461

Instrument, adjustable, for pulmonary artery banding: description of instrument and technique of application (Nahas et al.), 732

Insufficiency, respiratory, due to tracheal compression by aneurysm of ascending, transverse, and descending thoracic aorta: successful surgical management in 76-year-old man (Lefrak et al.), 956

Internal mammary artery grafts, myocardial revascularization by: a technique without optical assistance (Loop et al.), 674

Intra-aortic balloon counterpulsation, portable radiolucent stretcher for (Bolooki), 501

Intracardiac operations, open, potassium intake and balance after (Breckenridge et al.), 305

Intracorporeal circulation pump: contribution to development of mechanical heart substitutes (Vielberg), 143

Intramural esophageal perforation, spontaneous (Kelley et al.), 504

Intrapulmonary shunting and alveolar-arterial oxygen gradients in normal man, effect of supine bedrest upon (Trimble et al.), 873

Intrathoracic aneurysms of innominate and subclavian arteries (Thomas), 461

trachea and both stem bronchi with molded Silastic prosthesis, replacement of (Neville et al.), 569

Ischemic arrest, induced: clinical experience with cardioplegia in open-heart surgery (Kirsch et al.), 121

rabbit lungs, studies on metabolism of: conclusions for lung transplantation (von Wichert), 284

tolerance of lung (Pecora), 337 (Letter); Reply (Veith), 337

Isolated, supported dog heart observed over period of 24 hours, ventricular performance in (Gamble et al.), 906

L

Lacerations, artery, coronary, angiographic diagnosis of (Pepine et al.), 183

Lesions, arterial and aortic, due to nonspecific aorto-arteritis, surgical considerations of (Inoue et al.), 599

Ligation, ductus, in respiratory distress syndrome (Gupta et al.), 642

Lipid metabolism after trauma: role in pathogenesis of fat embolism (McNamara et al.), 968

pneumonia: new etiology (Hurvitz), 551

Lipoid pneumonia, bilateral, asynchronous, presenting as solitary nodules in lung: case report (Tunell and Blades), 334

Lobe, upper, left, with resultant bronchial mucocele, segmental bronchial atresia of (Wilson and Jones), 486

Lung(s) allograft rejection with and without immunosuppression, nature and evolution of (Veith et al.), 509

asynchronous bilateral lipoid pneumonia presenting as solitary nodules in: case report (Tunell and Blades), 334

Lung(s)—Cont'd
autotransplantation, bilateral, staged and simultaneous, in dogs, hemodynamic alterations after: follow-up studies (Fujimura et al.), 937
immediate studies (Fujimura et al.), 527
cancer—future projection (Langston), 412
dissemination of cancer cells by needle biopsy of (Berger et al.), 430
ischemic tolerance of (Pecora), 337 (Letter); Reply (Veith), 337
mechanics, ventilation-perfusion inequalities resulting from hypocapnic changes in (Monkcom and Patterson), 577
preservation, role of perfusion in (Castagna et al.), 521
rabbit, ischemic, studies on metabolism of: conclusions for lung transplantation (von Wichert), 284
transplants, canine, fine structure alterations in (Becker et al.), 81

M

Maintenance and restoration of normal sinus rhythm following mitral valve replacement: incidence of systemic emboli (Green et al.), 154
Malignant and normal cells, intercellular order in: centrioles (Schafer), 472
seemingly, granular cell myoblastoma of bronchus (Malette et al.), 99
Mammary artery grafts, internal, myocardial revascularization by: technique without optical assistance (Loop et al.), 674
veins, internal, pre-xiphoid communicator of (Chung), 880
Mark IV operation for hiatal hernia and analyses of recurrences and their treatment, long-term results of (Orringer et al.), 25
Mass, mediastinal, posterior, chordoma presenting as: choristoma (Clemons et al.), 922
Massage, biventricular, on barbiturate-induced circulatory arrest, effect of (Massion et al.), 230
Mechanical heart substitutes, contribution to development of: intracorporeal circulation pump (Vielberg), 143
Medial necrosis, cystic, operative treatment of aneurysms of thoracic aorta due to (Shumacker), 1
Median sternotomy, complications associated with (Sanfelippo and Danielson), 419
and outflow patch infections in total repair of tetralogy of Fallot: report of 3 cases of survival and review of literature (Orringer et al.), 442
Mediastinal displacement after right pneumonectomy in child, severe airway obstruction caused by: case report (Adams et al.), 534
mass, posterior, chordoma presenting as: choristoma (Clemons et al.), 922
thymoma, posterior: case report (Cooper and Narodick), 561
Mediastinoscopy, bilateral tension pneumothorax associated with (Furgang and Saidman), 329
Metabolism of ischemic rabbit lungs, studies on: conclusions for lung transplantation, (von Wichert), 284
lipid, after trauma: role in pathogenesis of fat embolism (McNamara et al.), 968
Metastases, chest, from gestational trophoblastic disease, role of thoracotomy in management of patients with (Shirley et al.), 545
Microembolic phenomenon in extracorporeal circulation, effect of Dacron wool filtration on (Ashmore et al.), 240
Microparticles produced when two disposable-bag oxygenators and a disc oxygenator are used for cardiopulmonary bypass, comparison of (Simmons et al.), 613
Mitral prosthesis, Mucormycosis in (Khicha et al.), 903
valve(s) disease, congenital, hemolytic anemia in child in association with (Moisey et al.), 765
fascia lata, autologous, frame-supported, 72, valve failure in: two year follow-up (McEnany et al.), 199
function, peroperative assessment of (Pagliero and Yates), 458
prosthesis, *Hemophilus aphrophilus* endocarditis in patient with: case report and review of literature (Goldsweig et al.), 408
replacement in child with sickle cell anemia (Craenen et al.), 797
restoration and maintenance of normal sinus rhythm following: incidence of systemic emboli (Green et al.), 154
Morphine early after open-heart surgery, circulatory effects of (Morrison et al.), 890
Mucocele, bronchial, segmental bronchial atresia of left upper lobe with resultant (Wilson and Jones), 486
Mucormycosis in mitral prosthesis (Khicha et al.), 903
Muscle pH monitoring and umbilical artery in neonatal cardiopulmonary bypass, use of (Harken and Filler), 973
Mustard operation as palliative procedure (Lindesmith et al.), 75

Myasthenia gravis, surgical management in (Mulder et al.), 105
Mycotic aneurysm of main pulmonary artery complicated by fistula between left coronary artery and pulmonary artery, surgical repair of: case report (Davis and Clarke), 380
non-, subvalvar aneurysms after aortic valve replacement (Pappas et al.), 925
Myoblastoma, cell, granular, malignant, seemingly, of bronchus (Malette et al.), 99
Myocardial damage, severe, in dogs, sustained circulation by left ventricular balloon pump after (Donald et al.), 681
infarctectomy and repair of ruptured ventricular septum during acute stage of infarction (Trinkle et al.), 193
infarction complicating coronary perfusion during open-heart surgery (Furlong et al.), 185
revascularization by internal mammary artery grafts: a technique without optical assistance (Loop et al.), 674

N

Necrosis, medial, cystic, operative treatment of aneurysms of thoracic aorta due to (Shumacker), 1
Needle biopsy of lung, dissemination of cancer cells by (Berger et al.), 430
Neomycin instillation and definitive closure: postpneumonectomy empyema (Stafford and Clagett), 771
Neonatal cardiopulmonary bypass, use of umbilical artery and muscle pH monitoring in (Harken and Filler), 973
Nonmycotic subvalvar aneurysms after aortic valve replacement (Pappas et al.), 925
Norepinephrine and angiotensin, response of pulmonary vascular segments to (Baum and Kot), 322

O

Obstruction(s), airway, severe, caused by mediastinal displacement after right pneumonectomy in child: case report (Adams et al.), 534
outflow, ventricular, left, multiple: aortic valvular and supravalvular stenosis and coarctation of aorta (Kerber et al.), 374
of superior vena cava and right pulmonary artery, surgical treatment of (Gopalrao et al.), 394
Obstructive disease, vascular, pulmonary experimental studies of pathogenesis of (Hawe et al.), 652
Occluder, miniaturized, for electromagnetic blood flow measurements (Swan and Reynolds), 403
Open-heart surgery, circulatory effects of morphine early after (Morrison et al.), 890
clinical experience with cardioplegia in: induced ischemic arrest (Kirsch et al.), 121
closure of patent ductus arteriosus during: surgical experience with different techniques (Bhati et al.), 820
electroencephalographic studies during (Wright et al.), 631
myocardial infarction complicating coronary perfusion during (Furlong et al.), 185
intracardiac operations, potassium intake and balance after (Breckenridge et al.), 305
Operation, Mark IV, for hiatal hernia and analyses of recurrences and their treatment, long-term results of (Orringer et al.), 25
Mustard, as palliative procedure (Lindesmith et al.), 75
Orthotopic transplantation of canine heart, hemodynamic observations after (Stinson et al.), 344
Outflow obstructions, ventricular, left, multiple: aortic valvular and supravalvular stenosis and coarctation of aorta (Kerber et al.), 374
patch(es) and median sternotomy infections in total repair of tetralogy of Fallot: report of 3 cases of survival and review of literature (Orringer et al.), 442
ventricular, right, aneurysms of (Rosenthal et al.), 735
tract, ventricular, right, composite graft of heterologous pulmonary valve and prosthetic tube for reconstruction of: clinical application in four patients (Imamura et al.), 747
Outlet, double-, right ventricle with transposition of great arteries (aorta anterior and to left), pulmonary stenosis, and subaortic ventricular septal defect, successful repair of (Danielson et al.), 741
ventricular, right, with fascia lata composite graft, reconstruction of (Ionescu et al.), 60
Oxygen gradients, alveolar-arterial, and intrapulmonary shunting in normal man, effect of supine bedrest upon (Trimble et al.), 873
venous, mixed, and erythrocyte 2,3-diphosphoglycerate, estimation of hypoxia during bypass by measuring (Murphy), 723

Oxygenators, disposable-bag, two, and disc oxygenator are used for cardiopulmonary bypass, comparison of microparticles produced when (Simmons et al.), 613

P

Pacemaker patient, hyperosmolar syndrome with cardiac arrest in (Lansky et al.), 794

Pacing, cardiac, permanent, for sinoatrial bradycardia (Morgan et al.), 453

Pain syndrome, abdominal, postcoarctation, subnormal amylase and gamma globulin levels in (Vyden), 439

Palliative procedure, Mustard operation as (Lindesmith et al.), 75

Patches, outflow, ventricular, right, aneurysms of (Rosenthal et al.), 735

Patent ductus arteriosus during open-heart surgery, closure of: surgical experience with different techniques (Bhati et al.), 820

Pathogenesis of pulmonary vascular obstructive disease, experimental studies of (Hawe et al.), 652

Perforation, esophageal, intramural, spontaneous (Kelley et al.), 504

septal, ventricular, and infarctectomy, left ventricular approach for repair of (Javid et al.), 14

Perfusion, artery, coronary, monitoring of coronary artery pressure during (Wertheimer and Hughes), 705

coronary, during open-heart surgery, myocardial infarction complicating (Furlong et al.), 185

in lung preservation, role of (Castagna et al.), 521

-ventilation inequalities resulting from hypocapnic changes in lung mechanics (Monkcom and Patterson), 577

Pericardial-diaphragmatic rupture, extensive, from blunt trauma: report of case, with review (Coats et al.), 275

effusion, chylous, complicating aorta–right pulmonary artery anastomosis (Hawker et al.), 491

Pericarditis, constrictive, following uremic effusion (Wolfe et al.), 540

postradiation: report on four more cases with special reference to bronchogenic carcinoma (Lawson et al.), 841

pH monitoring, muscle, and umbilical artery in neonatal cardiopulmonary bypass, use of (Harken and Filler), 973

Pleural hydatid cyst, primary, pneumothorax following rupture of: case report (Jesiotr and Romanoff), 594

Pneumatic disruption, traumatic, of esophagus (Buntain and Lynn), 553

Pneumonectomy, late complication after: esophagopleural fistula (Symes et al.), 783

post-, empyema: neomycin instillation and definitive closure (Stafford and Clagett), 771

right, in child, severe airway obstruction caused by mediastinal displacement after: case report (Adams et al.), 534

Pneumonia, lipid: new etiology (Hurvitz), 551

lipoid, bilateral, asynchronous, presenting as solitary nodules in lung: case report (Tunell and Blades), 334

Pneumothorax following rupture of primary pleural hydatid cyst: case report (Jesiotr and Romanoff), 594

tension, bilateral, associated with mediastinoscopy (Furgang and Saidman), 329

Positive-pressure ventilation, spontaneous, simple and effective method of employing: illustrative case reports (Civetta et al.), 312

Postcoarctation abdominal pain syndrome, subnormal amylase and gamma globulin levels in (Vyden), 439

Posterior mediastinal thymoma: case report (Cooper and Narodick), 561

ventricular aneurysm, surgical approach for (Bryant et al.), 639

Postinfarction external cardiac rupture, successful surgical treatment of (FitzGibbon et al.), 622

Postpneumonectomy empyema: neomycin instillation and definitive closure (Stafford and Clagett), 771

Postradiation pericarditis: report on four more cases with special reference to bronchogenic carcinoma (Lawson et al.), 841

Potassium intake and balance after open intracardiac operations (Breckenridge et al.), 305

Preservation, lung, role of perfusion in (Castagna et al.), 521

and sterilization, simple method of aortic homograft valve (Bolooki et al.), 249

Pressure, artery, coronary, during coronary artery perfusion, monitoring of (Wertheimer and Hughes), 705

Pre-xiphoid communicator of internal mammary veins (Chung), 880

Primary cardiac sarcoma (Sanoudos and Reed), 482

pleural hydatid cyst, pneumothorax following rupture of: case report (Jesiotr and Romanoff), 594

Primary—Cont'd
sarcoma of pulmonary artery (Sethi et al.), 587
Probe, flow, blood, extractable, Williams-Barefoot: design, transducer characteristics, and clinical application in cardiac surgery (Williams et al.), 917
Prosthesis(es), ball-valve, fabric-covered, complication of: sticking aortic valve (Mullin et al.), 215
Dacron, repair of left ventricular traumatic defect with (Symbas et al.), 608
mitral, Mucormycosis in (Khicha et al.), 903
Silastic, molded, replacement of intrathoracic trachea and both stem bronchi with (Neville et al.), 569
valve, heart, without anticoagulants, implantation of (Stanford et al.), 648
mitral, *Hemophilus aphrophilus* endocarditis in patient with: case report and review of literature (Goldsweig et al.), 408
Prosthetic cardiac valves: in vitro study (Duff and Fox), 131
metal heart valves, etiology of thrombus formation on: role of spontaneous in vivo interfacial potentials and their measurements (Lee et al.), 809
tube and heterologous pulmonary valve for reconstruction of right ventricular outflow tract, composite graft of: clinical application in four patients (Imamura et al.), 747
Pulmonary artery banding, adjustable instrument for: description of instrument and technique of application (Nahas et al.), 732
–cavo shunt, pulsatile: surgical technique and hemodynamic characteristics (Furuse et al.), 495
main, complicated by fistula between left coronary artery and pulmonary artery, surgical repair of mycotic aneurysm of: case report (Davis and Clarke), 380
primary sarcoma of (Sethi et al.), 587
right,–aorta anastomosis, chylous pericardial effusion complicating (Hawker et al.), 491
and superior vena cava, surgical treatment of obstruction of (Gopalrao et al.), 394
bullae, localized, requiring emergency surgery, massive hemoptysis associated with: case report (Berry and Ochsner), 94
embolism, implications of urokinase study concerning surgical treatment of (Sautter et al.), 54
Pulmonary embolism—Cont'd
massive, newer approaches in bedside diagnosis of: preliminary report (Calinog et al.), 300
intra-, shunting and alveolar-arterial oxygen gradients in normal man, effect of supine bedrest upon (Trimble et al.), 873
segmental resections, contemporary indications for (Bonfiles-Roberts and Clagett), 433
stenosis, subaortic ventricular septal defect, and transposition of great arteries (aorta anterior and to left), successful repair of double-outlet right ventricle with (Danielson et al.), 741
valve, absent, syndrome of: total correction with aortic valvular homografts (Layton et al.), 800
and artery replacement in calf. II. Autologous rectus sheath valve (Anagnostopoulos et al.), 665
heterologous, and prosthetic tube for reconstruction of right ventricular outflow tract: clinical application in four patients, composite graft of (Imamura et al.), 747
vascular obstructive disease, experimental studies of pathogenesis of (Hawe et al.), 652
segments to angiotensin and norepinephrine, response of (Baum and Kot), 322
vasculature, effects of silicone antifoam on (Gupta et al.), 714
veins, anomalous, totally, transposed great arteries combined with: report of successful correction (Sapsford et al.), 360
unilateral congenital stenosis of: very rare cause of pulmonary hypertension (Binet et al.), 397
venous connection, anomalous, total, patent ductus arteriosus, and ventricular septal defect, aortic arch interruption associated with: total correction in 8-day-old infant by means of profound hypothermia and limited cardiopulmonary bypass (Barratt-Boyes et al.), 367
drainage, anomalous, total, in first month of life, correction of (Buckley et al.), 269
mixed-type: report of successful surgical correction and review of literature (Klint et al.), 164
Pump, balloon, ventricular, left, after severe myocardial damage in dogs, sustained circulation by (Donald et al.), 681

Pump—Cont'd
circulation, intracorporeal: contribution to development of mechanical heart substitutes (Vielberg), 143
Purpura (ITP), thrombocytopenic, idiopathic, hemothorax in (Fromke and Schmidt) 962

R

Radiation, post-, pericarditis: report on four more cases with special reference to bronchogenic carcinoma (Lawson et al.), 841
Radiolucent stretcher, portable, for intra-aortic balloon counterpulsation (Bolooki), 501
Reconstruction of right ventricular outflow tract, composite graft of heterologous pulmonary valve and prosthetic tube for: clinical application in four patients (Imamura et al.), 747
outlet with fascia lata composite graft (Ionescu et al.), 60
Rectus sheath valve, autologous. II. Pulmonary valve and artery replacement in calf (Anagnostopoulos et al.), 665
Reduction and fixation, open, of comminuted fracture of sternum (Kurzweg et al.), 424
Rejection, allograft, lung, with and without immunosuppression, nature and evolution of (Veith et al.), 509
of orthotopically transplanted canine heart, changes in coronary blood flow during (Stinson et al.), 854
Renal failure, chronic, management of cardiac surgery in patients with: report of 3 cases (Manhas and Merendino), 235
Repair of left ventricular traumatic defect with Dacron prosthesis (Symbas et al.), 608
of ruptured ventricular septum and myocardial infarctectomy during acute stage of infarction (Trinkle et al.), 193
successful, of coexisting cor triatriatum and tetralogy of Fallot (Danielson and Feldt), 391
of double-outlet right ventricle with transposition of great arteries (aorta anterior and to left), pulmonary stenosis, and subaortic ventricular septal defect (Danielson et al.), 741
of ventricular septal perforation and infarctectomy, left ventricular approach for (Javid et al.), 14
Replacement, complete, of ascending aorta and aortic valve for treatment of aortic aneurysm (Singh and Bentall), 218
Replacement—Cont'd
of intrathoracic trachea and both stem bronchi with molded Silastic prosthesis (Neville et al.), 569
pulmonary artery and valve, in calf. II. Autologous rectus sheath valve (Anagnostopoulos et al.), 665
valve, aortic, nonmycotic subvalvar aneurysms after (Pappas et al.), 925
mitral, in child with sickle cell anemia (Craenen et al.), 797
restoration and maintenance of normal sinus rhythm following: incidence of systemic emboli (Green et al.), 154
Resections, segmental, pulmonary, contemporary indications for (Bonfiles-Roberts and Clagett), 433
Respiratory distress syndrome, ductus ligation in (Gupta et al.), 642
insufficiency due to tracheal compression by aneurysm of ascending, transverse, and descending thoracic aorta: successful surgical management in 76-year-old man (Lefrak et al.), 956
Restoration and maintenance of normal sinus rhythm following mitral valve replacement: incidence of systemic emboli (Green et al.), 154
Retrograde dissection, acute, of aorta during coronary artery bypass, successful surgical management of (Lefrak and Howell), 149
Revascularization, direct, of heart: early clinical experience with 200 patients (Anderson et al.), 353
myocardial, by internal mammary artery grafts: a technique without optical assistance (Loop et al.), 674
Rhabdomyoma of left ventricle, congenital subaortic stenosis in infancy caused by (Shaher et al.), 157
Rhythm, sinus, normal, following mitral valve replacement, restoration and maintenance of: incidence of systemic emboli (Green et al.), 154
Ring, esophageal, lower (Schatzki's ring), nature and surgical treatment of (Lam et al.), 34
Rupture, cardiac, external, postinfarction, successful surgical treatment of (Fitz-Gibbon et al.), 622
diaphragmatic-pericardial, extensive, from blunt trauma: report of case, with review (Coats et al.), 275
of primary pleural hydatid cyst, pneumothorax following: case report (Jesiotr and Romanoff), 594

S

Sarcoma, cardiac, primary (Sanoudos and Reed), 482
primary, of pulmonary artery (Sethi et al.), 587
tissue, soft, of chest wall at large institution, twenty years' experience with (Teitelbaum), 585
Schatzki's ring (lower esophageal ring), nature and surgical treatment of (Lam et al.), 34
Segmental resections, pulmonary, contemporary indications for (Bonfiles-Roberts and Clagett), 433
Septal defect, ventricular, patent ductus arteriosus, and total anomalous pulmonary venous connection, aortic arch interruption associated with: total correction in 8-day-old infant by means of profound hypothermia and limited cardiopulmonary bypass (Barratt-Boyes et al.), 367
subaortic, transposition of great arteries (aorta anterior and to left), and pulmonary stenosis, successful repair of double-outlet right ventricle with (Danielson et al.), 741
perforation, ventricular, and infarctectomy, left ventricular approach for repair of (Javid et al.), 14
Septum, ventricular, ruptured, during acute stage of infarction, myocardial infarctectomy and repair of (Trinkle et al.), 193
Shunt(ing), intrapulmonary, and alveolar-arterial oxygen gradients in normal man, effect of supine bedrest upon (Trimble et al.), 873
pulsatile, cavo–pulmonary artery: surgical technique and hemodynamic characteristics (Furuse et al.), 495
Sickle cell anemia, mitral valve replacement in child with (Craenen et al.), 797
Silicone antifoam on pulmonary vasculature, effects of (Gupta et al.), 714
Sinoatrial bradycardia, permanent cardiac pacing for (Morgan et al.), 453
Sinus(es) rhythm, normal, following mitral valve replacement, restoration and maintenance of: incidence of systemic emboli (Green et al.), 154
of Valsalva, aortic, due to bacterial endocarditis, with special reference to their operative management, aneurysms of (Shumacker), 896
Spontaneous positive-pressure ventilation, simple and effective method of employing: illustrative case reports (Civetta et al.), 312
Stenosis, aortic valvular and supravalvular, and coarctation of aorta: multiple left ventricular outflow obstructions (Kerber et al.), 374
congenital, unilateral, of pulmonary veins: very rare cause of pulmonary hypertension (Binet et al.), 397
pulmonary, subaortic ventricular septal defect, and transposition of great arteries (aorta anterior and to left), successful repair of double-outlet right ventricle with (Danielson et al.), 741
subaortic, congenital, in infancy caused by rhabdomyoma of left ventricle (Shaher et al.), 157
discrete: report of 20 cases (Shariatzadeh et al.), 258
valvular, tricuspid, isolated: pathology and merits of surgical treatment (Gueron et al.), 760
Sterilization and preservation, simple method of aortic homograft valve (Bolooki et al.), 249
Sternotomy, median, complications associated with (Sanfelippo and Danielson), 419
and outflow patch infections in total repair of tetralogy of Fallot: report of 3 cases of survival and review of literature (Orringer et al.), 442
Sternum, open reduction and fixation of comminuted fracture of (Kurzweg et al.), 424
Stretcher, radiolucent, portable, for intra-aortic balloon counterpulsation (Bolooki), 501
Structure alterations, fine, in canine lung transplants (Becker et al.), 81
Subaortic stenosis, congenital, in infancy caused by rhabdomyoma of left ventricle (Shaher et al.), 157
discrete: report of 20 cases (Shariatzadeh et al.), 258
Subclavian and innominate arteries, intrathoracic aneurysms of (Thomas), 461
vein, left, to clavicle, relationship of: practical considerations pertinent to percutaneous catheterization of subclavian vein (Land), 564
Subcostosternal diaphragmatic hernia (Thomas), 279
Substitutes, heart, mechanical, contribution to development of: intracorporeal circulation pump (Vielberg), 143
Supine bedrest upon alveolar-arterial oxygen gradients and intrapulmonary shunting in normal man, effect of (Trimble et al.), 873

Supported, isolated dog heart observed over period of 24 hours, ventricular performance in (Gamble et al.), 906
Surgery, cardiac, in patients with chronic renal failure, management of: report of 3 cases (Manhas and Merendino), 235
Syndrome of absent pulmonary valve: total correction with aortic valvular homografts (Layton et al.), 800
distress, respiratory, ductus ligation in (Gupta et al.), 642
Holt-Oram: surgical implications (Rainer et al.), 478
hyperosmolar, with cardiac arrest in pacemaker patient (Lansky et al.), 794
pain, abdominal, postcoarctation, subnormal amylase and gamma globulin levels in (Vyden), 439

T

Tension pneumothorax, bilateral, associated with mediastinoscopy (Furgang and Saidman), 329
Tetralogy of Fallot and cor triatriatum, coexisting, successful repair of (Danielson and Feldt), 391
median sternotomy and outflow patch infections in total repair of: report of 3 cases of survival and review of literature (Orringer et al.), 442
Thoracic aorta, descending, clinical application of temporary long external bypass method for cross-clamping of (Inoue et al.), 787
due to cystic medial necrosis, operative treatment of aneurysms of (Shumacker), 1
intra-, of innominate and subclavian arteries (Thomas), 461
trachea and both stem bronchi with molded Silastic prosthesis, replacement of (Neville et al.), 569
Thoracotomy in management of patients with chest metastases from gestational trophoblastic disease, role of (Shirley et al.), 545
Thorax, bony, at large institution, twenty years' experience with intrinsic tumors of (Teitelbaum), 776
Thrombocytopenic purpura (ITP), idiopathic, hemothorax in (Fromke and Schmidt), 962
Thrombus formation on prosthetic metal heart valves, etiology of: role of spontaneous in vivo interfacial potentials and their measurements (Lee et al.), 809
Thymoma, mediastinal, posterior: case report (Cooper and Narodick), 561
Tissue sarcoma, soft, of chest wall at large institution, twenty years' experience with (Teitelbaum), 585
Tolerance, ischemic, of lung (Pecora), 337 (Letter); Reply (Veith), 337
Trachea, intrathoracic, and both stem bronchi with molded Silastic prosthesis, replacement of (Neville et al.), 569
Tracheal compression by aneurysm of ascending, transverse, and descending thoracic aorta, respiratory insufficiency due to: successful surgical management in 76-year-old man (Lefrak et al.), 956
Tracheobronchial rest (chondroepithelial choristoma) of esophagus associated with esophageal atresia: report of unusual case (Goldman and Ban), 318
Tracheoesophageal fistula, esophageal atresia, and associated anomalies: hyperalimentation as aid in treatment (Holder et al.), 838
Tracheopleural fistula: complication of cuffed tracheostomy tube (Mulder et al.), 416
Tracheostomy tube, cuffed, complication of: tracheopleural fistula (Mulder et al.), 416
Tract, outflow, ventricular, right, composite graft of heterologous pulmonary valve and prosthetic tube for reconstruction of: clinical application in four patients (Imamura et al.), 747
Transarterial left heart bypass, effects of partial and complete unloading of failing left ventricle by (Zwart et al.), 865
Transplant(s), heart, auxiliary, assisted circulation with: experimental study (Barbero Marcial et al.), 696
lung, canine, fine structure alterations in (Becker et al.), 81
Transplantation, auto-, lung, bilateral, staged and simultaneous, in dogs, hemodynamic alterations after: follow-up studies (Fujimura et al.), 937
immediate studies (Fujimura et al.), 527
lung, conclusions for: studies on metabolism of ischemic rabbit lungs (von Wichert), 284
orthotopic, of canine heart, hemodynamic observations after (Stinson et al.), 344
Transplanted canine heart, orthotopically, changes in coronary blood flow during rejection of (Stinson et al.), 854
Transposed great arteries combined with totally anomalous pulmonary veins: report of successful correction (Sapsford et al.), 360

Transposition of great arteries (aorta anterior and to left), pulmonary stenosis, and subaortic ventricular septal defect, successful repair of double-outlet right ventricle with (Danielson et al.), 741
vessels, surgical correction of: technical suggestion (Replogle and Lin), 196
Trauma, blunt, extensive diaphragmatic-pericardial rupture from: report of case, with review (Coats et al.), 275
lipid metabolism after: role in pathogenesis of fat embolism (McNamara et al.), 968
Traumatic defect, ventricular, left, with Dacron prosthesis, repair of (Symbas et al.), 608
pneumatic disruption of esophagus (Buntain and Lynn), 553
Treatment, long-term results of Mark IV operation for hiatal hernia and analyses of recurrences and their (Orringer et al.), 25
operative, of aneurysms of thoracic aorta due to cystic medial necrosis (Shumacker), 1
surgical, certain considerations about its: epiphrenic diverticula of esophagus (Garcia et al.), 114
and nature of lower esophageal ring (Schatzki's ring) (Lam et al.), 34
of pulmonary embolism, implications of urokinase study concerning (Sautter et al.), 54
Triatriatum, cor, and tetralogy of Fallot, coexisting, successful repair of (Danielson and Feldt), 391
Tricuspid valvular stenosis, isolated: pathology and merits of surgical treatment (Gueron et al.), 760
Trophoblastic disease, gestational, role of thoracotomy in management of patients with chest metastases from (Shirley et al.), 545
Tube, prosthetic, and heterologous pulmonary valve for reconstruction of right ventricular outflow tract, composite graft of: clinical application in four patients (Imamura et al.), 747
tracheostomy, cuffed, complication of: tracheopleural fistula (Mulder et al.), 416
Tumors, intrinsic, of bony thorax at large institution, twenty years' experience with (Teitelbaum), 776

U

Ultrastructural changes in heart during acute failure (Ferrier et al.), 882
Umbilical artery and muscle pH monitoring in neonatal cardiopulmonary bypass, use of (Harken and Filler), 973
Uremic effusion, constrictive pericarditis following (Wolfe et al.), 540
Urokinase study concerning surgical treatment ot pulmonary embolism, implications of (Sautter et al.), 54

V

Valve(s), aortic, and ascending aorta for treatment of aortic aneurysm, complete replacement of (Singh and Bentall), 218
sticking: complication of fabric-covered ball-valve prosthesis (Mullin et al.), 215
and artery replacement, pulmonary, in calf. II. Autologous rectus sheath valve (Anagnostopoulos et al.), 665
cardiac, prosthetic: in vitro study (Duff and Fox), 131
disease, mitral, congenital, hemolytic anemia in child in association with (Moisey et al.), 765
failure in 72 frame-supported autologous fascia lata mitral valves: two year follow-up (McEnany et al.), 199
function, mitral, peroperative assessment of (Pagliero and Yates), 458
heart, metal, prosthetic, etiology of thrombus formation on: role of spontaneous in vivo interfacial potentials and their measurements (Lee et al.), 809
homograft, aortic, sterilization and preservation, simple method of (Bolooki et al.), 249
prosthesis(es), heart, without anticoagulants, implantation of (Stanford et al.), 648
mitral, *Hemophilus aphrophilus* endocarditis in patient with: case report and review of literature (Goldsweig et al.), 408
pulmonary, absent, syndrome of: total correction with aortic valvular homografts (Layton et al.), 800
heterologous, and prosthetic tube for reconstruction of right ventricular outflow tract, composite graft of: clinical application in four patients (Imamura et al.), 747
replacement, aortic, nonmycotic subvalvar aneurysms after (Pappas et al.), 925
mitral, in child with sickle cell anemia (Craenen et al.), 797
restoration and maintenance of normal sinus rhythm following: incidence of systemic emboli (Green et al.), 154
sheath, rectus, autologous. II. Pulmonary valve and artery replacement in calf (Anagnostopoulos et al.), 665
Valvular stenosis, tricuspid, isolated: pathology and merits of surgical treatment (Gueron et al.), 760

Vascular lesions, chronic, in monkey cardiac allografts, effect of heparin and dipyridamole on (Kahn et al.), 720
obstructive disease, pulmonary, experimental studies of pathogenesis of (Hawe et al.), 652
segments, pulmonary, to angiotensin and norepinephrine, response of (Baum and Kot), 322
Vasculature, pulmonary, effects of silicone antifoam on (Gupta et al.), 714
Vein(s), mammary, internal, pre-xiphoid communicator of (Chung), 880
pulmonary, anomalous, totally, transposed great arteries combined with: report of successful correction (Sapsford et al.), 360
unilateral congenital stenosis of: very rare cause of pulmonary hypertension (Binet et al.), 397
subclavian, left, to clavicle, relationship of: practical considerations pertinent to percutaneous catheterization of subclavian vein (Land), 564
Vena cava, inferior, at junction with right atrium by means of Foley catheter, control of bleeding from gunshot wound of (Arbulu and Thoms), 427
superior, and right pulmonary artery, surgical treatment of obstruction of (Gopalrao et al.), 394
Venous cannula, newly designed, for cardiopulmonary bypass (Phillips and Romanowski), 769
connection, pulmonary, anomalous, total, patent ductus arteriosus, and ventricular septal defect, aortic arch interruption associated with: total correction in 8-day-old infant by means of profound hypothermia and limited cardiopulmonary bypass (Barratt-Boyes et al.), 367
drainage, pulmonary, anomalous, total, in first month of life, correction of (Buckley et al.), 269
mixed-type: report of successful surgical correction and review of literature (Klint et al.), 164
oxygen, mixed, and erythrocyte 2,3-diphosphoglycerate, estimation of hypoxia during bypass by measuring (Murphy), 723
system, coronary, coronary arterial fistulas terminating in (Ogden and Stansel), 172
Ventilation-perfusion inequalities resulting from hypocapnic changes in lung mechanics (Monkcom and Patterson), 577
Ventilation—Cont'd
positive-pressure, spontaneous, simple and effective method of employing: illustrative case reports (Civetta et al.), 312
Ventricle, left, congenital subaortic stenosis in infancy caused by rhabdomyoma of (Shaher et al.), 157
failing, by transarterial left heart bypass, effects of partial and complete unloading of (Zwart et al.), 865
right, double-outlet, with transposition of great arteries (aorta anterior and to left), pulmonary stenosis, and subaortic ventricular septal defect, successful repair of (Danielson et al.), 741
Ventricular aneurysm, posterior, surgical approach for (Bryant et al.), 639
approach, left, for repair of ventricular septal perforation and infarctectomy (Javid et al.), 14
balloon pump, left, after severe myocardial damage in dogs, sustained circulation by (Donald et al.), 681
outflow obstructions, left, multiple: aortic valvular and supravalvular stenosis and coarctation of aorta (Kerber et al.), 374
patches, right, aneurysms of (Rosenthal et al.), 735
tract, right, composite graft of heterologous pulmonary valve and prosthetic tube for reconstruction of: clinical application in four patients (Imamura et al.), 747
outlet, right, with fascia lata composite graft, reconstruction of (Ionescu et al.), 60
performance in isolated, supported dog heart observed over period of 24 hours (Gamble et al.), 906
septal defect, patent ductus arteriosus, and total anomalous pulmonary venous connection, aortic arch interruption associated with: total correction in 8-day-old infant by means of profound hypothermia and limited cardiopulmonary bypass (Barratt-Boyes et al.), 367
subaortic, transposition of great arteries (aorta anterior and to left), and pulmonary stenosis, successful repair of double-outlet right ventricle with (Danielson et al.), 741
perforation and infarctectomy, left ventricular approach for repair of (Javid et al.), 14
septum, ruptured, during acute stage of infarction, myocardial infarctectomy and repair of (Trinkle et al.), 193

Ventricular—Cont'd
traumatic defect, left, with Dacron prosthesis, repair of (Symbas et al.), 608
Vessels, great, surgical correction of transposition of: technical suggestion (Replogle and Lin), 196

W

Williams-Barefoot extractable blood flow probe: design, transducer characteristics, and clinical application in cardiac surgery (Williams et al.), 917

X

Xiphoid, pre-, communicator of internal mammary veins (Chung), 880

The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery

Editor BRIAN BLADES, *Washington, D. C.*

Subject index*

A

Abscess, amebic, of liver into pericardium, diagnosis and treatment of rupture of (Ibarra-Pérez et al.), 11
Accessory diaphragm associated with congenital posterolateral diaphragmatic hernia, aberrant systemic artery to right lower lobe, and anomalous pulmonary vein: review and report of case (Ikeda et al.), 18
developmental pulmonary, arterial, and venous anomalies with: surgical correction of vena cava–bronchovascular complex (Hayward et al.), 203
Aesculapius contemplates thoracic surgery (Strieder), 169 (President's address)
Air passages, major, new technique for repairing (MacHale), 6
Airway smooth-muscle contraction, effect of transpulmonary pressure on (Wolfe et al.), 757
Allografts, lung, matched, immunologically, serial observations on (Benfield et al.), 907
Allotransplantation, bilateral, one-stage, of canine lungs: early rejection and prolonged survival with immunosuppression (Kondo et al.), 897
Amebic abscess of liver into pericardium, diagnosis and treatment of rupture of (Ibarra-Pérez et al.), 11
American Association for Thoracic Surgery: Announcement of 1973 Annual Meeting, 327, 493, 659, 831
Annual meeting notes, 325
Graham Traveling Fellowship, 168
Roster of members, 473
Board of Thoracic Surgery: Announcement of changes in examination procedures, 167, 328
Announcement of 1972 examination, 167, 328
Announcement of 1974 examination, 660, 832, 968
Analogues, electrical, of methods for continuous positive-pressure ventilation (Kolff et al.), 586
Anastomosis in puppies, tracheal growth following (Maeda and Grillo), 304
Anatomy, surgical, of sternal blood supply (Arnold), 596
Aneurysm, pseudo-, biventricular, traumatic, of heart with ventricular septal defect (Symbas et al.), 647
saccular, of distal thoracic aorta, esophageal obstruction due to (Sakiyalak et al.), 959
Angiocardiographic and hemodynamic evaluation after Mustard procedure for transposition of great arteries (Morgan et al.), 878
Angiocardiography, radioisotopic, acute intracardiac volume changes demonstrated with (Enright et al.), 136
Annular erosion and pericarditis: complications of endocarditis of aortic root (Utley and Mills), 76
Anomalies of pulmonary circulation, distribution of lung function in patients with (Shannon and Kazemi), 26
Anomalous pulmonary venous drainage, partial, new technique in correction of (Puig-Massana et al.), 108
total, to coronary sinus: revised procedure for its correction (Van Praagh et al.), 132
systemic venous drainage, total, surgical correction of (Roberts et al.), 803
Anoxia, increased safety of aorto–coronary artery bypass surgery with induced ventricular fibrillation to avoid (Wilson et al.), 193
Anoxic arrest, normothermic, of heart: is there means of estimating safe period? (MacGregor et al.), 833
Antibiotics in vascular reconstructive surgery, administration of: comparison of effectiveness of systemic cephaloridine versus cephaloridine-soaked grafts in preventing graft infections in dogs (Baker and Bodensteiner), 301

*July, pp. 1-168; August, pp. 169-328; September, pp. 329-494; October, pp. 495-660; November, pp. 661-832; December, pp. 833-998.

Aorta-to-coronary bypass surgery, cardiac constriction following (Kendall et al.), 142
spinal cord complications following surgery for coarctation of: study of 66 cases (Brewer et al.), 368
thoracic, descending, left ventricle–femoral artery shunt in management of acute traumatic rupture of (Ketharanathan et al.), 291
distal, esophageal obstruction due to saccular aneurysm of (Sakiyalak et al.), 959
Aortic hematoma, dissecting, transvenous cardiac pacing as adjunct to medical management of (Michaelis et al.), 322
intra-, balloon pumping in hypovolemic and ischemic heart preparations, assessment of (Weber et al.), 869
root, complications of endocarditis of: annular erosion and pericarditis (Utley and Mills), 76
homografts, late results after right ventricular outflow tract reconstruction with (Brawley et al.), 314
valve homografts, viable, five-year study of (Angell et al.), 329
replacement with frame-supported fascia lata and pericardial grafts, results of (Ionescu et al.), 340
valvuloplasty for aortic insufficiency associated with ventricular septal defect, technique of (Murphy and Poirier), 800
Aorto-coronary artery bypass surgery with induced ventricular fibrillation to avoid anoxia, increased safety of (Wilson et al.), 193
bypass for acute coronary occlusion (Cohn et al.), 503
grafting with autogenous vein, vein-support frame for (Hairston), 820
grafts in patients and experimental animals, augmentation of myocardial contractility by: use of catecholamine infusion as pharmacologic stress (Wechsler et al.), 861
induced by pressure and ischemia, changes in vein grafts following (Brody et al.), 847
surgery, risk factors in patients undergoing (Barboriak et al.), 92
Arrest, anoxic, normothermic, of heart: is there means of estimating safe period? (MacGregor et al.), 833
circulatory, on distribution of systemic blood flow in rhesus monkeys, effect of deep hypothermia and (Rudy et al.), 706
Arterial–left atrial shunt, pulmonary, in treatment of pulmonary hypertension, role of: experimental study (Gupta), 949
pressure on cardiac performance early after open intracardiac operations, effect of alterations in (Kouchoukos et al.), 563
Arteriovenous shunt, pulmonary, during ventilation with room air, nomogram for estimating (Ray et al.), 611
Artery(ies), bronchial, after experimental lung lobe autotransplantation, re-establishment of (Rabinovich), 119
bypass, direct internal mammary–coronary, without suture, prosthesis, or adhesive (Fadali et al.), 114
surgery, aorto–coronary, with induced ventricular fibrillation to avoid anoxia, increased safety of (Wilson et al.), 193
disease, coronary, acute and chronic, hemodynamic response to acute mitral regurgitation in dogs with (Omoto et al.), 255
great, hemodynamic and angiocardiographic evaluation after Mustard procedure for transposition of (Morgan et al.), 878
intraventricular repair of transposition of (McGoon), 430
innominate and proximal left common carotid, management of injuries of (Ecker et al.), 618
pulmonary, right, with left atrium, direct communication of: case report and review of literature (Abe et al.), 38
–saphenous vein bypass surgery, coronary, endarterectomy as supplement to (Groves et al.), 514
shunt, left ventricle–femoral, in management of acute traumatic rupture of descending thoracic aorta (Ketharanathan et al.), 291
systemic, aberrant, to right lower lobe, and anomalous pulmonary vein, accessory diaphragm associated with congenital posterolateral diaphragmatic hernia: review and report of case (Ikeda et al.), 18
Artificial heart, total, in calves under hypothermia with 10 day survival, implantation of (Kawai et al.), 45
pathophysiology and new problems in (Akutsu et al.), 762
Aspergillosis, pulmonary (Strutz et al.), 963
Atrial septal defect through left thoracotomy, creation of (Yokoyama and Sakakibara), 816
shunt, pulmonary arterial–left, in treatment of pulmonary hypertension, role of: experimental study (Gupta), 949
Atrium, left, direct communication of right pulmonary artery with: case report and review of literature (Abe et al.), 38
Autogenous vein, vein-support frame for aorto-coronary bypass grafting with (Hairston), 820

Autologous blood, fresh, in open-heart surgery, transfusion of: method for reducing bank blood requirements (Hallowell et al.), 941
Autotransplantation, lobe, lung, experimental, re-establishment of bronchial arteries after (Rabinovich), 119

B

Bacterial endocarditis, cardiac surgery in (Windsor et al.), 282
operative management of valvular complications of (Crosby et al.), 235
Ball prostheses, metallic, cloth-covered, long-term evaluation of (Isom et al.), 354
Balloon pumping, intra-aortic, in hypovolemic and ischemic heart preparations, assessment of (Weber et al.), 869
Bank blood requirements, method for reducing: transfusion of fresh autologous blood in open-heart surgery (Hallowell et al.), 941
Battery pacing unit, disposable, for open-heart surgery, (Harris et al.), 165
Biopsy, lung, trephine, with high-speed air drills: results of 50 biopsies in 47 patients (Zavala et al.), 220
needle, of lung, dissemination of cancer cells after (Naylor), 324 (Letter); Reply (Berger), 324
Blood, autologous, fresh, in open-heart surgery, transfusion of: method for reducing bank blood requirements (Hallowell et al.), 941
donor, perfusion without (Litwak et al.), 714
flow, systemic, in rhesus monkeys, effect of deep hypothermia and circulatory arrest on distribution of (Rudy et al.), 706
frozen, for oxygenator priming, studies with (Hanson et al.), 87
supply, sternal, surgical anatomy of (Arnold), 596
Brain and myocardium with venous blood during heart-lung bypass in man, perfusion of (Giannelli et al.), 661
Bronchial arteries after experimental lung lobe autotransplantation, re-establishment of (Rabinovich), 119
carcinoma, factors influencing survival after resection for (Shields et al.), 391
with involvement of superior mediastinal lymph nodes, role of mediastinoscopy in selection of treatment for (Pearson et al.), 382
Bronchovascular complex, vena cava–, surgical correction of: developmental pulmonary, arterial, and venous anomalies with accessory diaphragm (Hayward et al.), 203
Bubbles in infant oxygenator at very low flow rates (Fisk et al.), 98
Bypass, aorto-coronary, for acute coronary occlusion (Cohn et al.), 503
induced by pressure and ischemia, changes in vein grafts following (Brody et al.), 847
cardiopulmonary, for cardiac surgery in neonates and infants, deep hypothermia combined with (Mori et al.), 422
clinical, portal venous hemodynamics during and after (Hankins et al.), 31
subendocardial ischemia after (Buckberg et al.), 669
direct internal mammary–coronary artery, without suture, prosthesis, or adhesive (Fadali et al.), 114
grafting, aorto-coronary, with autogenous vein, vein-support frame for (Hairston), 820
grafts, aorto-coronary, in patients and experimental animals, augmentation of myocardial contractility by: use of catecholamine infusion as pharmacologic stress (Wechsler et al.), 861
heart-lung, in man, perfusion of brain and myocardium with venous blood during Giannelli et al.), 661
surgery, aorta-to-coronary, cardiac constriction following (Kendall et al.), 142
aorto–coronary artery, with induced ventricular fibrillation to avoid anoxia, increased safety of (Wilson et al.), 193
risk factors in patients undergoing (Barboriak et al.), 92
coronary artery–saphenous vein, endarterectomy as supplement to (Groves et al.), 514

C

Cancer cells after needle biopsy of lung, dissemination of (Naylor), 324 (Letter); Reply (Berger), 324
of lung, evaluation of routine diagnostic procedures in (Berardi et al.), 82
Cannulation, de-, tracheostomy, use of one-way valve to aid in (Ashcraft and Leape), 161
Carcinoid tumors, atypical, of lung (Arrigoni et al.), 413
Carcinoma, bronchial, factors influencing survival after resection for (Shields et al.), 391
with involvement of superior mediastinal lymph nodes, role of mediastinoscopy in selection of treatment for (Pearson et al.), 382
sleeve lobectomy for: ten-year experience (Jensik et al.), 400
tracheogenic: successful management by excision and intercostal-periosteal pedicle graft (Childress), 573

Cardiac constriction following aorta-to-coronary bypass surgery (Kendall et al.), 142
intra-, volume changes, acute, demonstrated with radioisotopic angiocardiography (Enright et al.), 136
pacing, transvenous, as adjunct to medical management of dissecting aortic hematoma (Michaelis et al.), 322
performance early after open intracardiac operations, effect of alterations in arterial pressure on (Kouchoukos et al.), 563
surgery in bacterial endocarditis (Windsor et al.), 282
in neonates and infants, deep hypothermia combined with cardiopulmonary bypass for (Mori et al.), 422
and propranolol (Viljoen et al.), 826
temporary-permanent pacemaker lead for (Nathan et al.), 957
valve, dura mater, homologous: preliminary study of 30 cases (Puig et al.), 154
Cardiopulmonary bypass for cardiac surgery in neonates and infants, deep hypothermia combined with (Mori et al.), 422
clinical, portal venous hemodynamics during and after (Hankins et al.), 31
subendocardial ischemia after (Buckberg et al.), 669
Carotid arteries, common, left, proximal, management of injuries of innominate and (Ecker et al.), 618
Catecholamine infusion as pharmacologic stress, use of: augmentation of myocardial contractility by aorto-coronary bypass grafts in patients and experimental animals (Wechsler et al.), 861
Cephaloridine, systemic, versus cephaloridine-soaked grafts in preventing graft infections in dogs, comparison of effectiveness of: administration of antibiotics in vascular reconstructive surgery (Baker and Bodensteiner), 301
Children less than 4 years of age, treatment of tetralogy of Fallot in (Puga et al.), 247
Chondrosarcoma, primary, of lung: case report and review of literature (Morgan and Salama), 460
Circulation, extracorporeal, disseminated intravascular coagulation following (Boyd et al.), 685
pulmonary, distribution of lung function in patients with anomalies of (Shannon and Kazemi), 26
Circulatory arrest on distribution of systemic blood flow in rhesus monkeys, effect of deep hypothermia and (Rudy et al.), 706
Circulatory—Cont'd
assistance and hypothermia in dogs with acute myocardial infarction (Bussemaker et al.), 61
competence during chronic microsphere-induced myocardial failure, maintenance of (LaFarge et al.), 652
Cloth-covered metallic ball prostheses, long-term evaluation of (Isom et al.), 354
Coagulation, intravascular, disseminated, following extracorporeal circulation (Boyd et al.), 685
Coarctation of aorta, spinal cord complications following surgery for: study of 66 cases (Brewer et al.), 368
Colon interpositions, gastric reflux in: method of treatment (Butterfield and Massi), 229
Communication, direct, of right pulmonary artery with left atrium: case report and review of literature (Abe et al.), 38
Complex, vena cava–bronchovascular, surgical correction of: developmental pulmonary, arterial, and venous anomalies with accessory diaphragm (Hayward et al.), 203
Congenital cystic disease of lung masquerading as diaphragmatic hernia (Campbell and Raffensperger), 592
Constriction, cardiac, following aorta-to-coronary bypass surgery (Kendall et al.), 142
Contractility, myocardial, by aorto-coronary bypass grafts in patients and experimental animals, augmentation of: use of catecholamine infusion as pharmacologic stress (Wechsler et al.), 861
Contraction, smooth-muscle, airway, effect of transpulmonary pressure on (Wolfe et al.), 757
Controlled-pressure intratracheal cuff, clinical and experimental evaluation of (Magovern et al.), 747
Conus, bilateral, l-transposition, and pulmonic stenosis, total correction of d-loop double-outlet right ventricle with (Lincoln), 435
Coronary artery bypass, direct internal mammary–, without suture, prosthesis, or adhesive (Fadali et al.), 114
surgery, aorto–, with induced ventricular fibrillation to avoid anoxia, increased safety of (Wilson et al.), 193
disease, acute and chronic, hemodynamic response to acute mitral regurgitation in dogs with (Omoto et al.), 255
–saphenous vein bypass surgery, endarterectomy as supplement to (Groves et al.), 514
bypass, aorto-, induced by pressure and ischemia, changes in vein grafts following (Brody et al.), 847

Coronary bypass—Cont'd
grafting, aorto-, with autogenous vein, vein-support frame for (Hairston), 820
grafts, aorto-, in patients and experimental animals, augmentation of myocardial contractility by: use of catecholamine infusion as pharmacologic stress (Wechsler et al.), 861
surgery, aorta-to-, cardiac constriction following (Kendall et al.), 142
aorto-, risk factors in patients undergoing (Barboriak et al.), 92
flow, reversibility of acute ischemic injury to myocardium by restoration of (O'Brien et al.), 840
intra-, pressure and flow in impending myocardial infarction (Green), 625
occlusion, acute, aorto-coronary bypass for (Cohn et al.), 503
shock on tolerance to pulmonary embolus, effect of (Lowenfels et al.), 296
sinus, total anomalous pulmonary venous drainage to: revised procedure for its correction (Van Praagh et al.), 132
Correspondence
Dissemination of cancer cells after needle biopsy of lung (Naylor), 324
Reply to dissemination of cancer cells after needle biopsy of lung (Berger), 324
Cuff, intratracheal, controlled-pressure, clinical and experimental evaluation of (Magovern et al.), 747
Cystic disease, congenital, of lung masquerading as diaphragmatic hernia (Campbell and Raffensperger), 592

D

Decannulation, tracheostomy, use of one-way valve to aid in (Ashcraft and Leape), 161
Diagnostic procedures, routine, in cancer of lung, evaluation of (Berardi et al.), 82
Diaphragm, accessory, associated with congenital posterolateral diaphragmatic hernia, aberrant systemic artery to right lower lobe, and anomalous pulmonary vein: review and report of case (Ikeda et al.), 18
developmental pulmonary, arterial, and venous anomalies with: surgical correction of vena cava–bronchovascular complex (Hayward et al.), 203
Diaphragmatic hernia, congenital cystic disease of lung masquerading as (Campbell and Raffensperger), 592
Disseminated intravascular coagulation following extracorporeal circulation (Boyd et al.), 685
Donor blood, perfusion without (Litwak et al.), 714
Double-outlet right ventricle, concept of (Lev et al.), 271
d-loop, with bilateral conus, l-transposition, and pulmonic stenosis, total correction of (Lincoln), 435
Drainage, venous, pulmonary, anomalous, partial, new technique in correction of (Puig-Massana et al.), 108
total, to coronary sinus: revised procedure for its correction (Van Praagh et al.), 132
systemic, anomalous, total surgical correction of (Roberts et al.), 803
Drill, air, high-speed, trephine lung biopsy with: results of 50 biopsies in 47 patients (Zavala et al.), 220
Dura mater cardiac valve, homologous: preliminary study of 30 cases (Puig et al.), 154

E

Echocardiography in patients undergoing mitral valve surgery, usefulness of (Johnson et al.), 922
Edema, pulmonary, interstitial, management of: significance of hypoproteinemia (Giordano et al.), 739
Electrical analogues of methods for continuous positive-pressure ventilation (Kolff et al.), 586
Embolus, pulmonary, effect of coronary shock on tolerance to (Lowenfels et al.), 296
Empyema, early thoracotomy for (Morin et al.), 530
nontuberculous, at University of Missouri Medical Center from 1957 to 1971, review of (Simmons et al.), 578
Endarterectomy as supplement to coronary artery–saphenous vein bypass surgery (Groves et al.), 514
Endocarditis of aortic root, complications of: annular erosion and pericarditis (Utley and Mills), 76
bacterial, cardiac surgery in (Windsor et al.), 282
operative management of valvular complications of (Crosby et al.), 235
Pseudomonas, tricuspid, lifesaving operation for: valvulectomy without prosthetic replacement (Arbulu et al.), 103
Endocardium, role of direct mechanical trauma on: subendocardial hemorrhagic necrosis (Chiu et al.), 66
Entrapment of metal ball in Series 6310 and 2310 Starr-Edwards prosthetic valves (Mond et al.), 186

Erosion, annular, and pericarditis: complications of endocarditis of aortic root (Utley and Mills), 76
Esophageal obstruction due to saccular aneurysm of distal thoracic aorta (Sakiyalak et al.), 959
Esophagus, canine, with composite prosthesis and greater omentum, replacement of portion of (Barnes et al.), 892
Evolving myocardial infarction, acute, evaluation and surgical management of (Smullens et al.), 495
Extracorporeal circulation, disseminated intravascular coagulation following (Boyd et al.), 685
oxygenation, prolonged, treatment with: acute respiratory insufficiency (Hill et al.), 551

F

Failure, myocardial, microsphere-induced, chronic, maintenance of circulatory competence during (LaFarge et al.), 652
Fallot in children less than 4 years of age, treatment of tetralogy of (Puga et al.), 247
Fascia lata, frame-supported, and pericardial grafts, results of aortic valve replacement with (Ionescu et al.), 340
Fellowship, Graham Traveling, 168
Femoral artery shunt, left ventricle–, in management of acute traumatic rupture of descending thoracic aorta (Ketharanathan et al.), 291
Fibrillation, ventricular, induced, to avoid anoxia, increased safety of aorto–coronary artery bypass surgery with (Wilson et al.), 193
Flow, blood, systemic, in rhesus monkeys, effect of deep hypothermia and circulatory arrest on distribution of (Rudy et al.), 706
coronary, reversibility of acute ischemic injury to myocardium by restoration of (O'Brien et al.), 840
graft, vein, and reactive hyperemia in human heart (Bittar et al.), 855
and pressure, intracoronary, in impending myocardial infarction, (Green), 625
Frozen blood for oxygenator priming, studies with (Hanson et al.), 87

G

Gastric reflux in colon interpositions: method of treatment (Butterfield and Massi), 229
Graft(s), allo-, lung, matched, immunologically, serial observations on (Benfield et al.), 907
Graft(s)—Cont'd
bypass, aorto-coronary, in patients and experimental animals, augmentation of myocardial contractility by: use of catecholamine infusion as pharmacologic stress (Wechsler et al.), 861
flow, vein, and reactive hyperemia in human heart (Bittar et al.), 855
frame-supported fascia lata and pericardial, results of aortic valve replacement with (Ionescu et al.), 340
pedicle, intercostal-periosteal, successful management by excision and: tracheogenic carcinoma (Childress), 573
vein, following aorto-coronary bypass induced by pressure and ischemia, changes in (Brody et al.), 847
Grafting, bypass, aorto-coronary, with autogenous vein, vein-support frame for (Hairston), 820
Graham Traveling Fellowship, 168
Gravis, myasthenia, thymectomy for: long-term results in 74 cases (Levasseur et al.), 1
Growth, tracheal, following anastomosis in puppies (Maeda and Grillo), 304

H

Heart, artificial, total, in calves under hypothermia with 10 day survival, implantation of (Kawai et al.), 45
pathophysiology and new problems in (Akutsu et al.), 762
human, vein graft flow and reactive hyperemia in (Bittar et al.), 855
-lung bypass in man, perfusion of brain and myocardium with venous blood during (Giannelli et al.), 661
normothermic anoxic arrest of: is there means of estimating safe period? (MacGregor et al.), 833
open-, surgery, disposable battery pacing unit for (Harris et al.), 165
with hemodilution perfusion upon insulin secretion, effect of (Stremmel et al.), 263
on intellectual functioning, long-term effects of (Frank et al.), 811
magnesium and (Turnier et al.), 694
transfusion of fresh autologous blood in: method for reducing bank blood requirements (Hallowell et al.), 941
preparations, hypovolemic and ischemic, assessment of intra-aortic balloon pumping in (Weber et al.), 869
Hemangiopericytoma, pulmonary, primary: report of case (Davis et al.), 822

Volume 64
Number 6
December, 1972

Hematoma, aortic, dissecting, transvenous cardiac pacing as adjunct to medical management of (Michaelis et al.), 322
Hemodilution perfusion upon insulin secretion, effect of open-heart surgery with (Stremmel et al.), 263
Hemodynamic and angiocardiographic evaluation after Mustard procedure for transposition of great arteries (Morgan et al.), 878
Hemodynamics, venous, portal, during and after clinical cardiopulmonary bypass (Hankins et al.), 31
Hemorrhagic necrosis, subendocardial: role of direct mechanical trauma on endocardium (Chiu et al.), 66
Hernia, diaphragmatic, congenital cystic disease of lung masquerading as (Campbell and Raffensperger), 592
posterolateral, congenital, aberrant systemic artery to right lower lobe, and anomalous pulmonary vein, accessory diaphragm associated with: review and report of case (Ikeda et al.), 18
Homografts, root, aortic, late results after right ventricular outflow tract reconstruction with (Brawley et al.), 314
valve, aortic, viable, five-year study of (Angell et al.), 329
Homologous dura mater cardiac valve: preliminary study of 30 cases (Puig et al.), 154
Honored speaker's address: specialization in medicine (Hanlon), 179
Hyperemia, reactive, and vein graft flow in human heart (Bittar et al.), 855
Hypertension, pulmonary, role of pulmonary arterial–left atrial shunt in treatment of: experimental study (Gupta), 949
secondary, experimental model of (Gupta et al.), 953
Hypoproteinemia, significance of: management of interstitial pulmonary edema, (Giordano et al.), 739
Hypothermia and circulatory assistance in dogs with acute myocardial infarction (Bussemaker et al.), 61
deep, and circulatory arrest on distribution of systemic blood flow in rhesus monkeys, effect of (Rudy et al.), 706
combined with cardiopulmonary bypass for cardiac surgery in neonates and infants (Mori et al.), 422
with 10 day survival, implantation of total artificial heart in calves under (Kawai et al.), 45
Hypovolemic and ischemic heart preparations, assessment of intra-aortic balloon pumping in (Weber et al.), 869

I

Immunologically matched lung allografts, serial observations on (Benfield et al.), 907
Immunosuppression, early rejection and prolonged survival with: one-stage bilateral allotransplantation of canine lungs (Kondo et al.), 897
Implantation of total artificial heart in calves under hypothermia with 10 day survival (Kawai et al.), 45
Indicator-dilution method of measuring valvular insufficiency, assessment of (Killen and Arnold), 779
Infant(s) and neonates, deep hypothermia combined with cardiopulmonary bypass for cardiac surgery in (Mori et al.), 422
oxygenator at very low flow rates, bubbles in (Fisk et al.), 98
Infarct, massive, and replacement of interventricular septum, early resection of (Crosby et al.), 629
Infarction, myocardial, acute, hypothermia and circulatory assistance in dogs with (Bussemaker et al.), 61
evolving, acute, evaluation and surgical management of (Smullens et al.), 495
impending, intracoronary pressure and flow in (Green), 625
post-, septal defects, suggestions concerning operative management of (Shumacker), 452
Innominate and proximal left common carotid arteries, management of injuries of (Ecker et al.), 618
Insufficiency, aortic, associated with ventricular septal defect, technique of aortic valvuloplasty for (Murphy and Poirier), 800
respiratory, acute: treatment with prolonged extracorporeal oxygenation (Hill et al.), 551
valvular, assessment of indicator-dilution method of measuring (Killen and Arnold), 779
Insulin secretion, effect of open-heart surgery with hemodilution perfusion upon (Stremmel et al.), 263
Intellectual functioning, long-term effects of open-heart surgery on (Frank et al.), 811
Interpositions, colon, gastric reflux in: method of treatment (Butterfield and Massi), 229
Interstitial pulmonary edema, management of: significance of hypoproteinemia (Giordano et al.), 739
Interventricular septum, early resection of massive infarct and replacement of (Crosby et al.), 629

Intra-aortic balloon pumping in hypovolemic and ischemic heart preparations, assessment of (Weber et al.), 869
Intracardiac operations, open, effect of alterations in arterial pressure on cardiac performance early after (Kouchoukos et al.), 563
volume changes, acute, demonstrated with radioisotopic angiocardiography (Enright et al.), 136
Intracoronary pressure and flow in impending myocardial infarction (Green), 625
Intramyocardial pressure: persistence of transmural gradient in empty heart and relationship to myocardial oxygen consumption (Baird et al.), 635
Intratracheal cuff, controlled-pressure, clinical and experimental evaluation of (Magovern et al.), 747
Intravascular coagulation, disseminated, following extracorporeal circulation (Boyd et al.), 685
Intraventricular repair of transposition of great arteries (McGoon), 430
Ischemia and pressure, changes in vein grafts following aorto-coronary bypass induced by (Brody et al.), 847
subendocardial, after cardiopulmonary bypass (Buckberg et al.), 669
Ischemic and hypovolemic heart preparations, assessment of intra-aortic balloon pumping in (Weber et al.), 869
injury, acute, to myocardium by restoration of coronary flow, reversibility of (O'Brien et al.), 840

L

Lead, pacemaker, temporary-permanent, for cardiac surgery (Nathan et al.), 957
Liver into pericardium, diagnosis and treatment of rupture of amebic abscess of (Ibarra-Pérez et al.), 11
Lobe, lower, right, and anomalous pulmonary vein, accessory diaphragm associated with congenital posterolateral diaphragmatic hernia, aberrant systemic artery to: review and report of case (Ikeda et al.), 18
Lobectomy, sleeve, for carcinoma: ten-year experience (Jensik et al.), 400
Low-output pacemakers, clinical application of (Center and Tarjan), 935
Lung(s) allografts, matched, immunologically, serial observations on (Benfield et al.), 907
atypical carcinoid tumors of (Arrigoni et al.), 413
biopsy, trephine, with high-speed air drill: results of 50 biopsies in 47 patients (Zavala et al.), 220
Lung(s)—Cont'd
canine, one-stage bilateral allotransplantation of: early rejection and prolonged survival with immunosuppression (Kondo et al.), 897
dissemination of cancer cells after needle biopsy of (Naylor), 324 (Letter); Reply (Berger), 324
evaluation of routine diagnostic procedures in cancer of (Berardi et al.), 82
function in patients with anomalies of pulmonary circulation, distribution of (Shannon and Kazemi), 26
heart-, bypass in man, perfusion of brain and myocardium with venous blood during (Giannelli et al.), 661
lobe autotransplantation, experimental, re-establishment of bronchial arteries after (Rabinovich), 119
masquerading as diaphragmatic hernia, congenital cystic disease of (Campbell and Raffensperger), 592
primary chondrosarcoma of: case report and review of literature (Morgan and Salama), 460
syndrome, wet, traumatic, relation to: high-velocity pulmonary injury (Wanebo and van Dyke), 537
Lymph nodes, mediastinal, superior, role of mediastinoscopy in selection of treatment for bronchial carcinoma with involvement of (Pearson et al.), 382

M

Magnesium and open-heart surgery (Turnier et al.), 694
Magnetic fields, active, behavior of triggered unipolar pacemakers in (Keshishian et al.), 772
Mammary–coronary artery bypass, internal, direct, without suture, prosthesis, or adhesive (Fadali et al.), 114
Matched lung allografts, immunologically, serial observations on (Benfield et al.), 907
Mediastinoscopy in selection of treatment for bronchial carcinoma with involvement of superior mediastinal lymph nodes, role of (Pearson et al.), 382
Medicine, specialization in (Hanlon), 179 (Honored speaker's address)
Membrane oxygenator, silicone, new, laboratory evaluation of (Birnbaum and Eiseman), 441
Metastatic sarcoma, pulmonary resection for (Feldman and Kyriakos), 784
Microsphere-induced myocardial failure, chronic, maintenance of circulatory competence during (LaFarge et al.), 652

Mitral regurgitation, acute, in dogs with acute and chronic coronary artery disease, hemodynamic response to (Omoto et al.), 255
valve surgery, usefulness of echocardiography in patients undergoing (Johnson et al.), 922
Muscle, smooth-, contraction, airway, effect of transpulmonary pressure on (Wolfe et al.), 757
Mustard procedure for transposition of great arteries, hemodynamic and angiocardiographic evaluation after (Morgan et al.), 878
Myasthenia gravis, thymectomy for: long-term results in 74 cases (Levasseur et al.), 1
Myocardial contractility by aorto-coronary bypass grafts in patients and experimental animals, augmentation of: use of catecholamine infusion as pharmacologic stress (Wechsler et al.), 861
failure, microsphere-induced, chronic, maintenance of circulatory competence during (LaFarge et al.), 652
infarction, acute, hypothermia and circulatory assistance in dogs with (Bussemaker et al.), 61
evolving, acute, evaluation and surgical management of (Smullens et al.), 495
impending, intracoronary pressure and flow in (Green), 625
oxygen consumption, persistence of transmural gradient in empty heart and relationship to: intramyocardial pressure (Baird et al.), 635
revascularization, left ventricular venting without suction in (Cox and Sharp), 472
secondary surgical procedure for (Johnson et al.), 523
Myocardium and brain with venous blood during heart-lung bypass in man, perfusion of (Giannelli et al.), 661
by restoration of coronary flow, reversibility of acute ischemic injury to (O'Brien et al.), 840

N

Necrosis, hemorrhagic, subendocardial: role of direct mechanical trauma on endocardium (Chiu et al.), 66
Needle biopsy of lung, dissemination of cancer cells after (Naylor), 324 (Letter); Reply (Berger), 324
Neonates and infants, deep hypothermia combined with cardiopulmonary bypass for cardiac surgery in (Mori et al.), 422
Nodes, lymph, mediastinal, superior, role of mediastinoscopy in selection of treatment for bronchial carcinoma with involvement of (Pearson et al.), 382
Nomogram for estimating pulmonary arteriovenous shunt during ventilation with room air (Ray et al.), 611
Nontuberculous empyema at University of Missouri Medical Center from 1957 to 1971, review of (Simmons et al.), 578
Normothermic anoxic arrest of heart: is there means of estimating safe period? (MacGregor et al.), 833

O

Obstruction, esophageal, due to saccular aneurysm of distal thoracic aorta (Sakiyalak et al.), 959
Occlusion, coronary, acute, aorto-coronary bypass for (Cohn et al.), 503
Omentum, greater and composite prosthesis, replacement of portion of canine esophagus with (Barnes et al.), 892
One-way valve to aid in tracheostomy decannulation, use of (Ashcraft and Leape), 161
Open-heart surgery, disposable battery pacing unit for (Harris et al.), 165
with hemodilution perfusion upon insulin secretion, effect of (Stremmel et al.), 263
on intellectual functioning, long-term effects of (Frank et al.), 811
magnesium and (Turnier et al.), 694
transfusion of fresh autologous blood in: method for reducing bank blood requirements (Hallowell et al.), 941
Outflow tract reconstruction, venticular, right, with aortic root homografts, late results after (Brawley et al.), 314
Outlet, double-, right ventricle, concept of (Lev et al.), 271
Output, low-, pacemakers, clinical application of (Center and Tarjan), 935
Oxygen consumption, myocardial, persistence of transmural gradient in empty heart and relationship to: intramyocardial pressure (Baird et al.), 635
Oxygenation, extracorporeal, prolonged, treatment with: acute respiratory insufficiency (Hill et al.), 551
Oxygenator, infant, at very low flow rates, bubbles in (Fisk et al.), 98
membrane, silicone, new, laboratory evaluation of (Birnbaum and Eiseman), 441
priming, studies with frozen blood for (Hanson et al.), 87

P

Pacemaker(s) lead, temporary-permanent, for cardiac surgery (Nathan et al.), 957

Pacemaker(s)—Cont'd
low-output, clinical application of (Center and Tarjan), 935
unipolar, triggered, in active magnetic fields, behavior of (Keshishian et al.), 772
Pacing, cardiac, transvenous, as adjunct to medical management of dissecting aortic hematoma (Michaelis et al.), 322
unit, battery, disposable, for open-heart surgery (Harris et al.), 165
Passages, air, major, new technique for repairing (MacHale), 6
Pathophysiology and new problems in total artificial heart (Akutsu et al.), 762
Pedicle graft, intercostal-periosteal, successful management by excision and: tracheogenic carcinoma (Childress), 573
Perfusion of brain and myocardium with venous blood during heart-lung bypass in man (Giannelli et al.), 661
without donor blood (Litwak et al.), 714
hemodilution, upon insulin secretion, effect of open-heart surgery with (Stremmel et al.), 263
Pericardial grafts, results of aortic valve replacement with frame-supported fascia lata and (Ionescu et al.), 340
Pericarditis and annular erosion: complications of endocarditis of aortic root (Utley and Mills), 76
Pericardium, diagnosis and treatment of rupture of amebic abscess of liver into (Ibarra-Pérez et al.), 11
Pneumomediastinum and spontaneous pneumothorax as complications of sarcoma (Laucius et al.), 467
Pneumothorax associated with pulmonary tuberculosis (Ihm et al.), 211
spontaneous, and pneumomediastinum as complications of sarcoma (Laucius et al.), 467
Portal venous hemodynamics during and after clinical cardiopulmonary bypass (Hankins et al.), 31
Positive-pressure ventilation, continuous, electrical analogues of methods for (Kolff et al.), 586
Postinfarction septal defects, suggestions concerning operative management of Shumacker), 452
President's address: Aesculapius contemplates thoracic surgery (Strieder), 169
Pressure, arterial, on cardiac performance early after open intracardiac operations, effect of alterations in (Kouchoukos et al.), 563
controlled-, intratracheal cuff, clinical and experimental evaluation of (Magovern et al.), 747
and flow, intracoronary, in impending myocardial infarction (Green), 625
Pressure—Cont'd
intramyocardial: persistence of transmural gradient in empty heart and relationship to myocardial oxygen consumption (Baird et al.), 635
and ischemia, changes in vein grafts following aorto-coronary bypass induced by (Brody et al.), 847
transpulmonary, on airway smooth-muscle contraction, effect of (Wolfe et al.), 757
Primary chondrosarcoma of lung: case report and review of literature (Morgan and Salama), 460
pulmonary hemangiopericytoma: report of case (Davis et al.), 822
Priming, oxygenator, studies with frozen blood for (Hanson et al.), 87
Propranolol and cardiac surgery (Viljoen et al.), 826
Prosthesis(es), ball, metallic, cloth-covered, long-term evaluation of (Isom et al.), 354
composite, and greater omentum, replacement of portion of canine esophagus with (Barnes et al.), 892
Prosthetic replacement, valvulectomy without: lifesaving operation for tricuspid Pseudomonas endocarditis (Arbulu et al.), 103
valves, Series 6310 and 2310 Starr-Edwards, entrapment of metal ball in (Mond et al.), 186
Pseudoaneurysm, biventricular, traumatic, of heart with ventricular septal defect (Symbas et al.), 647
Pseudomonas endocarditis, tricuspid, lifesaving operation for: valvulectomy without prosthetic replacement (Arbulu et al.), 103
Pulmonary arterial–left atrial shunt in treatment of pulmonary hypertension, role of: experimental study (Gupta), 949
arteriovenous shunt during ventilation with room air, nomogram for estimating (Ray et al.), 611
artery, right, with left atrium, direct communication of: case report and review of literature (Abe et al.), 38
aspergillosis (Strutz et al.), 963
circulation, distribution of lung function in patients with anomalies of (Shannon and Kazemi), 26
edema, interstitial, management of: significance of hypoproteinemia (Giordano et al.), 739
embolus, effect of coronary shock on tolerance to (Lowenfels et al.), 296
hemangiopericytoma, primary: report of case (Davis et al.), 822
hypertension, secondary, experimental model of (Gupta et al.), 953

Pulmonary—Cont'd
injury, high-velocity: relation to traumatic wet lung syndrome (Wanebo and van Dyke), 537
resection for metastatic sarcoma (Feldman and Kyriakos), 784
sequestration: coexisting classic intralobar and extralobar types in child (Pendse et al.), 127
trans-, pressure on airway smooth-muscle contraction, effect of (Wolfe et al.), 757
tuberculosis, pneumothorax associated with (Ihm et al.), 211
vein, anomalous, accessory diaphragm associated with congenital posterolateral diaphragmatic hernia, aberrant systemic artery to right lower lobe, and: review and report of case (Ikeda et al.), 18
venous drainage, anomalous, partial, new technique in correction of (Puig-Massana et al.), 108
total, to coronary sinus: revised procedure for its correction (Van Praagh et al.), 132
Pulmonic stenosis, total correction of d-loop double-outlet right ventricle with bilateral conus, l-transposition, and (Lincoln), 435
Pumping, balloon, intra-aortic, in hypovolemic and ischemic heart preparations, assessment of (Weber et al.), 869

R

Radioisotopic angiocardiography, acute intracardiac volume changes demonstrated with (Enright et al.), 136
Reconstruction, tract, outflow, ventricular, right, with aortic root homografts, late results after (Brawley et al.), 314
Reconstructive surgery, vascular, administration of antibiotics in: comparison of effectiveness of systemic cephaloridine versus cephaloridine-soaked grafts in preventing graft infections in dogs (Baker and Bodensteiner), 301
Reflux, gastric, in colon interpositions: method of treatment (Butterfield and Massi), 229
Regurgitation, mitral, acute, in dogs with acute and chronic coronary artery disease, hemodynamic response to (Omoto et al.), 255
Rejection, early, and prolonged survival with immunosuppression: one-stage bilateral allotransplantation of canine lungs (Kondo et al.), 897
Repair, intraventricular, of transposition of great arteries (McGoon), 430
Repairing major air passages, new technique for (MacHale), 6
Replacement of interventricular septum, early resection of massive infarct and (Crosby et al.), 629
of portion of canine esophagus with composite prosthesis and greater omentum (Barnes et al.), 892
prosthetic, valvulectomy without: lifesaving operation for tricuspid Pseudomonas endocarditis (Arbulu et al.), 103
valve, aortic, with frame-supported fascia lata and pericardial grafts, results of (Ionescu et al.), 340
Resection for bronchial carcinoma, factors influencing survival after (Shields et al.), 391
early, of massive infarct and replacement of interventricular septum (Crosby et al.), 629
pulmonary, for metastatic sarcoma (Feldman and Kyriakos), 784
Respiratory insufficiency, acute: treatment with prolonged extracorporeal oxygenation (Hill et al.), 551
support, long-term, early complications of (Fleming and Bowen), 729
Revascularization, myocardial, left ventricular venting without suction in (Cox and Sharp), 472
secondary surgical procedure for (Johnson et al.), 523
Risk factors in patients undergoing aorto-coronary bypass surgery (Barboriak et al.), 92
Rupture of amebic abscess of liver into pericardium, diagnosis and treatment of (Ibarra-Pérez et al.), 11
traumatic, acute, of descending thoracic aorta, left ventricle–femoral artery shunt in management of (Ketharanathan et al.), 291

S

Saccular aneurysm of distal thoracic aorta, esophageal obstruction due to (Sakiyalak et al.), 959
Saphenous vein bypass surgery, coronary artery–, endarterectomy as supplement to (Groves et al.), 514
Sarcoma, metastatic, pulmonary resection for (Feldman and Kyriakos), 784
spontaneous pneumothorax and pneumomediastinum as complications of (Laucius et al.), 467
Secondary pulmonary hypertension, experimental model of (Gupta et al.), 953
Septal defect(s), atrial, through left thoracotomy, creation of (Yokoyama and Sakakibara), 816
postinfarction, suggestions concerning operative management of (Shumacker), 452

Septal defect(s)—Cont'd
ventricular, technique of aortic valvuloplasty for aortic insufficiency associated with (Murphy and Poirier), 800
traumatic biventricular pseudoaneurysm of heart with (Symbas et al.), 647
Septum, interventricular, early resection of massive infarct and replacement of (Crosby et al.), 629
Sequestration, pulmonary: coexisting classic intralobar and extralobar types in child (Pendse et al.), 127
Shock, coronary, on tolerance to pulmonary embolus, effect of (Lowenfels et al.), 296
Shunt, arteriovenous, pulmonary, during ventilation with room air, nomogram for estimating (Ray et al.), 611
left ventricle–femoral artery, in management of acute traumatic rupture of descending thoracic aorta (Ketharanathan et al.), 291
pulmonary arterial–left atrial, in treatment of pulmonary hypertension, role of: experimental study (Gupta), 949
Silicone membrane oxygenator, new, laboratory evaluation of (Birnbaum and Eiseman), 441
Sleeve lobectomy for carcinoma: ten-year experience (Jensik et al.), 400
Specialization in medicine (Hanlon), 179 (Honored speaker's address)
Spinal cord complications following surgery for coarctation of aorta: study of 66 cases (Brewer et al.), 368
Starr-Edwards prosthetic valves, Series 6310 and 2310, entrapment of metal ball in (Mond et al.), 186
Stenosis, pulmonic, total correction of d-loop double-outlet right ventricle with bilateral conus, l-transposition, and (Lincoln), 435
Sternal blood supply, surgical anatomy of (Arnold), 596
Subendocardial hemorrhagic necrosis: role of direct mechanical trauma on endocardium (Chiu et al.), 66
ischemia after cardiopulmonary bypass (Buckberg et al.), 669
Support, respiratory, long-term, early complications of (Fleming and Bowen), 729
Surgery, cardiac, and propranolol (Viljoen et al.), 826
open-heart, disposable battery pacing unit for (Harris et al.), 165
magnesium and (Turnier et al.), 694
thoracic, Aesculapius contemplates (Strieder), 169 (President's address)
Surgery—Cont'd
valve, mitral, usefulness of echocardiography in patients undergoing (Johnson et al.), 922
Syndrome, lung, wet, traumatic, relation to: high-velocity pulmonary injury (Wanebo and van Dyke), 537
Systemic artery, aberrant, to right lower lobe, and anomalous pulmonary vein, accessory diaphragm associated with congenital posterolateral diaphragmatic hernia: review and report of case (Ikeda et al.), 18
blood flow in rhesus monkeys, effect of deep hypothermia and circulatory arrest on distribution of (Rudy et al.), 706
venous drainage, anomalous, total, surgical correction of (Roberts et al.), 803

T

Temporary-permanent pacemaker lead for cardiac surgery (Nathan et al.), 957
Tetralogy of Fallot in children less than 4 years of age, treatment of (Puga et al.), 247
Thoracic aorta, descending, left ventricle–femoral artery shunt in management of acute traumatic rupture of (Ketharanathan et al.), 291
distal, esophageal obstruction due to saccular aneurysm of (Sakiyalak et al.), 959
surgery, Aesculapius contemplates (Strieder), 169 (President's address)
Thoracotomy, early, for empyema (Morin et al.), 530
left, creation of atrial septal defect through (Yokoyama and Sakakibara), 816
Thymectomy for myasthenia gravis: long-term results in 74 cases (Levasseur et al.), 1
Tracheal growth following anastomosis in puppies (Maeda and Grillo), 304
intra-, cuff, controlled-pressure, clinical and experimental evaluation of (Magovern et al.), 747
Tracheogenic carcinoma: successful management by excision and intercostal-periosteal pedicle graft (Childress), 573
Tracheostomy decannulation, use of one-way valve to aid in (Ashcraft and Leape), 161
Transfusion of fresh autologous blood in open-heart surgery: method for reducing bank blood requirements (Hallowell et al.), 941
Transplantation, allo-, bilateral, one-stage, of canine lungs: early rejection and prolonged survival with immunosuppression (Kondo et al.), 897
auto-, lobe, lung, experimental, re-establishment of bronchial arteries after (Rabinovich), 119

Transposition, l-, and pulmonic stenosis, total correction of d-loop double-outlet right ventricle with bilateral conus (Lincoln), 435
of great arteries, hemodynamic and angiocardiographic evaluation after Mustard procedure for (Morgan et al.), 878
intraventricular repair of (McGoon), 430
Transpulmonary pressure on airway smooth-muscle contraction, effect of (Wolfe et al.), 757
Trauma, mechanical, direct, on endocardium, role of: subendocardial hemorrhagic necrosis (Chiu et al.), 66
Trephine lung biopsy with high-speed air drill: results of 50 biopsies in 47 patients (Zavala et al.), 220
Triggered unipolar pacemakers in active magnetic fields, behavior of (Keshishian et al.), 772
Tuberculosis, pulmonary, pneumothorax associated with (Ihm et al.), 211
Tuberculous, non-, empyema at University of Missouri Medical Center from 1957 to 1971, review of (Simmons et al.), 578
Tumors, carcinoid, atypical, of lung (Arrigoni et al.), 413

U

Unipolar pacemakers, triggered, in active magnetic fields, behavior of (Keshishian et al.), 772

V

Valve(s), cardiac, dura mater, homologous: preliminary study of 30 cases (Puig et al.), 154
homografts, aortic, viable, five-year study of (Angell et al.), 329
one-way, to aid in tracheostomy decannulation, use of (Ashcraft and Leape), 161
prosthetic, Series 6310 and 2310 Starr-Edwards, entrapment of metal ball in (Mond et al.), 186
replacement, aortic, with frame-supported fascia lata and pericardial grafts, results of (Ionescu et al.), 340
surgery, mitral, usefulness of echocardiography in patients undergoing (Johnson et al.), 922
Valvular complications of bacterial endocarditis, operative management of (Crosby et al.) 235
insufficiency, assessment of indicator-dilution method of measuring (Killen and Arnold), 779
Valvulectomy without prosthetic replacement: lifesaving operation for tricuspid Pseudomonas endocarditis (Arbulu et al.), 103
Valvuloplasty, aortic, for aortic insufficiency associated with ventricular septal defect (Murphy and Poirier), 800
Vascular reconstructive surgery, administration of antibiotics in: comparison of effectiveness of systemic cephaloridine versus cephaloridine-soaked grafts in preventing graft infections in dogs (Baker and Bodensteiner), 301
Vein bypass surgery, coronary artery–saphenous, endarterectomy as supplement to (Groves et al.), 514
graft(s) flow and reactive hyperemia in human heart (Bittar et al.), 855
following aorto-coronary bypass induced by pressure and ischemia, changes in (Brody et al.), 847
pulmonary, anomalous, accessory diaphragm associated with congenital posterolateral diaphragmatic hernia, aberrant systemic artery to right lower lobe, and: review and report of case (Ikeda et al.), 18
support frame for aorto-coronary bypass grafting with autogenous vein (Hairston), 820
Vena cava-bronchovascular complex, surgical correction of: developmental pulmonary, arterial, and venous anomalies with accessory diaphragm (Hayward et al.), 203
Venous drainage, pulmonary, anomalous, partial, new technique in correction of (Puig-Massana et al.), 108
total, to coronary sinus: revised procedure for its correction (Van Praagh et al.), 132
systemic, anomalous, total, surgical correction of (Roberts et al.), 803
hemodynamics, portal, during and after clinical cardiopulmonary bypass (Hankins et al.), 31
Ventillation, positive-pressure, continuous, electrical analogues of methods for (Kolff et al.), 586
with room air, nomogram for estimating pulmonary arteriovenous shunt during (Ray et al.), 611
Venting, ventricular, left, without suction in myocardial revascularization (Cox and Sharp), 472
Ventricle–femoral artery shunt, left, in management of acute traumatic rupture of descending thoracic aorta (Ketharanathan et al.), 291
right, double-outlet, concept of (Lev et al.), 271
d-loop, with bilateral conus, l-transposition, and pulmonic stenosis, total correction of (Lincoln), 435

Ventricular, inter-, septum, early resection of massive infarct and replacement of (Crosby et al.), 629
intra-, repair of transposition of great arteries (McGoon), 430
outflow tract reconstruction, right, with aortic root homografts, late results after (Brawley et al.), 314
septal defect, technique of aortic valvuloplasty for aortic insufficiency associated with (Murphy and Poirier), 800
Ventricular septal defect—Cont'd
traumatic biventricular pseudoaneurysm of heart with (Symbas et al.), 647
venting, left,without suction in myocardial revascularization (Cox and Sharp), 472
Volume changes, intracardiac, acute, demonstrated with radioisotopic angiocardiography (Enright et al.), 136
